Victory Series™
Gold Appliance System

Give Your Patients A Smile As Good As Gold.

Victory Series™ 24K Gold Brackets, Arch Wires and Auxiliaries

The Victory Series Appliance System from 3M Unitek, an advanced, completely integrated system, is now available with 24 karat gold plating. Plated with 300 micro inches of gold, the Victory Series is significantly brighter in appearance to competing appliance systems coated with titanium nitride. The Victory Series Gold System features brackets, archwires, and auxiliaries, including gold-colored AlastiK™ ligatures.

The Victory Series Gold System's pure, 24 karat gold plating is guaranteed to remain for the duration of the treatment, and offers patients an aesthetic alternative to the steel appearance of traditional metal brackets. Also available in APC, the Victory Series Gold System is a family of products which works together to reduce chair time, increase patient satisfaction, and provide the orthodontist with a state-of-the-art orthodontic solution.

The Victory Series Gold System from 3M Unitek. One more way to make your life easier.
