

NECK, ABDOMEN & BACK SUPPORTS

Chronic back pain, especially in the area of the lumbar spine (lower back), is a widespread condition, and because of the sheer number and intensity of movements in the cervical region, the cervical spine is also prone to a wide range of stresses and strains. FUTURO™ Neck, Abdomen & Back Supports are designed to fit nearly any part of these affected regions, taking the shape of anatomical contours and providing warmth and compression. FUTURO back supports also help support compromised lumbar spines and protect from extreme movements.

FUTURO™ Soft Cervical Collar

Use for: Whiplash, pinched nerves, mild neck pain and stiffness

Features:

- Adjustable straps for both height and circumference
- Chin strap adjusts collar height for comfort and fit
- Breathable foam covered with soft, smooth knit material
- Brace is easy to put on and take off

Material: Polyurethane foam, modal acrylic, nylon, cotton, polyester

Color: White

FUTURO™ Stabilizing Back Support

Use for: Relief and compression of lumbar region for a stiff, strained or sore back

Features:

- Designed with support cushion pads to help target sore, aching muscles without placing pressure directly on the spine
- Breathable materials for all-day comfort
- Adjustable for customized fit and support
- Sleek, non-bulky design will not restrict movement
- Back panel evenly distributes moderate support
- Promotes proper back alignment
- Brace is easy to put on and take off

Material: Urethane foam, polyester, nylon, fiberboard, spandex, acrylic

Color: White
