ME-433AR

3M™ DI-NOC™ Architectural Finishes

Abrasion Resistant AR Series

74 Patterns

Superior Abrasion Resistance

3M™ DI-NOC™ Architectural Finishes Abrasion Resistant AR Series are decorative surface finishes for interior applications in high-traffic areas. The abrasion resistant top layer reduces the visibility of scratches.

+10 New Patterns

Including designs unique for the AR series and expansion of Metallic series.

Try scratching the surface with a coin.

Even after scratching, AR Series remains intact and maintains its aesthetic appearance.

ME-2293AR

WH-111

3M™ DI-NOC™ Architectural Finishes

Whiteboard Film

2 Items

Transform Surfaces into Communication Spaces

3M™ DI-NOC™ Whiteboard Film is a unique architectural finish that can convert interior surfaces into creative and collaborative environments. Compatible with most dry erase markers.

Writing

WH-111 offers excellent writing and erasing performance with a glossy surface.

WH-111

Writing and Projection

PWF-500 provides both whiteboard and projection capabilities, with the matte surface providing minimal glare from a projector.

PWF-500

3M™ DI-NOC™ Architectural Finishes

EX Series for Exterior

58 Patterns

Weather Resistant Surface Finish for Exterior Applications

3M™ DI-NOC™ EX Series for exteriors are durable, dimensionally stable, and weather resistant surface finishes for exterior applications. They can be applied directly on smooth, non-porous application surfaces. It is designed to maintain consistent finish and color, despite UV exposure and other conditions.

Coordinate Exterior and Interior Designs
Create a sense of unity between interior and exterior surfaces by using DI-NOC™ Standard Series and DI-NOC™ EX Series with the same design.

Excellent Weather Resistance
Exterior warranty ranges from 3 to 14 years, depending on the climate and installation location. Contact 3M Technical Support for detailed warranty information.

3M™ DI-NOC™ Architectural Finishes

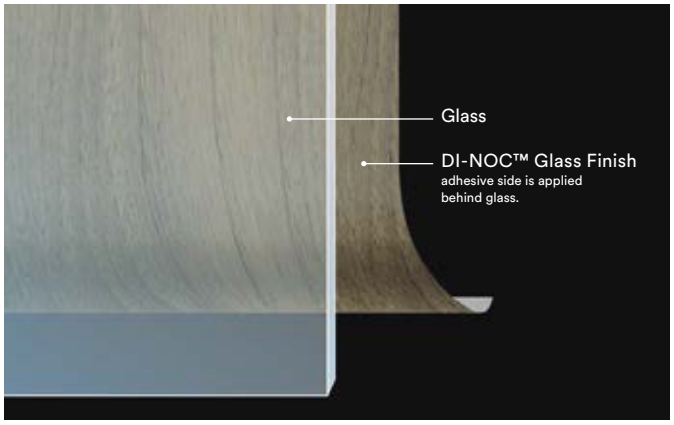
Glass Finishes

22 Patterns

3M™DI-NOC™ Glass Finishes can be used behind many glass surfaces and provide an opaque dimensional look when viewed from the front glass surface. The current Product line can be found in the 3M™ Glass Finishes Product Catalog.

+4 New Patterns

You can make a glass decorated with unique designs by applying DI-NOC™ Glass Finishes.



3M™ DI-NOC™ Architectural Finishes

2021-2023

WHAT IS A MASTERPIECE?

A masterpiece improves the lives of all who experience it. They are the objects of beauty inspired by nature and materials at hand — wood, textile, stone, leather, metal — and are limited only by the imagination of the master. 3M™ DI-NOC™ Architectural Finishes bring you the beauty of hundreds of natural elements with the additional new designs, Premium Wood, Metallic Palette and Artisanal Design, to inspire your masterpiece. We use advancements in science so you can capture the worlds natural beauty without sacrificing a forest or your creative ideals. You can create a stunning new space quickly, easily, and sustainably or breathe new life into an existing space almost overnight. The non-porous surface of DI-NOC™ Architectural Finishes is not just beautiful but easy to clean and disinfect. There are no boundaries. No limits. Only your imagination. Create your masterpiece.

Matte Coating Technology :

The new Matte Series utilizes the latest technology available. With a new state of the art matte surface, the Matte Series offers realistic texture by converting incident light into diffuse reflection and suppressing specular reflection. This series also provides fingerprint resistance. Explore the new world of design possibilities with 3M Matte Series.

Experience the difference in texture between standard series and new Matte Series

Matte Series
PS-1870MT

Standard Series
PS-999

Diffuse Reflection

The new state of the art matte surface converts incident light into diffuse reflection, providing very low gloss and a deep, high quality matte texture.

Fingerprint Resistant

The matte texture provides fingerprint resistance, reducing the visibility of fingerprints with an easy to maintain surface.

Tactile Feature

A realistic matte texture is created by combining the matte coating technology with high definition embossing technology.

Premium Wood

Controlled Reflection Technology

The new Premium Wood Series expresses the realistic appearance and texture of natural wood. The controlled reflection of the matte coating technology is combined with both fine and deep wood grain embossing and high-quality printing. This unique technology creates the optimum tone and texture of each species of wood.
