3M™ Speedglas™ Welding Helmet 9100 FX

Side windows: Shade 5 filters that increase your field of view.

Compatible with our top-of-the-line series of 3M™ Speedglas™ Welding Filter Series 9100.

The approx. 8 x 4.25 in. (17 x 10 cm) clear protective visor is curved, increasing your peripheral vision.

Ergonomically designed head suspension.

Deflectors inside the helmet help direct exhaled air out.

Meets the requirements of CSA Z94.3 and the high impact requirements of ANSI Z87.1 – 2010.

* Per European Standard EN 379, auto-darkening welding filters have a four-part classification: optical class / diffusion of light / variation on luminous transmittance / angle dependence. Classifications range from 1 to 3, with 1 being the best.

3M™ Speedglas™ Auto-Darkening Filter Series 9100

Excellent Optics, Wider Views

Magnification made easy. The magnifying lens holder is built into the welding filter, making lens installation easier and more secure.

The Speedglas welding filter series 9100 include three auto-darkening filters: regular, large and extra-large viewing area.

The tack welding comfort mode uses an intermediate shade 5 light state to help minimize eye strain during extended tack welding applications.

You can adjust the sensitivity of the arc detection for switching reliability.

New 9100XXi

The Delay function allows you to set the dark-to-light switching time.

Seven user selectable dark shades for most types of arc welding.

⚠ WARNING

These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

⚠ WARNING

This product is designed to help protect the wearer's eyes and face from harmful radiation including visible light, ultra-violet radiation (UV), infra-red radiation (IR), sparks and spatter resulting from welding processes. These products must be used only by qualified persons who are properly trained in their use and maintenance. Misuse may result in permanent eye injury and vision loss. Always wear ANSI Z87.1 compliant safety spectacles in addition to any welding helmet. For proper use, see supervisor, or User Instructions or call 3M in U.S.A. 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414.
