

3M™ Window Films

Residential and Commercial

Sun Control,
Safety, Security

The 3M Difference.

Clearly Superior Window Films.

3M Brings Clarity To Window Film Claims

There are scores of companies that claim to be just as good as 3M™ Window Films. Such boasts are especially common for companies that are here today, but long gone by tomorrow. Making such claims is easy but backing them up with facts makes all the difference. The 3M difference. So here are the facts from a company you know and trust.

Technical leadership

We push beyond industry standards. Our window films are designed down to every detail and rigorously tested. We don't just test our products—we test to extremes!

3M weathering science

As window film energy solutions grow in popularity, building and home owners need a partner they can trust to deliver high quality performance for a variety of conditions. For over 60 years, 3M has employed state-of-the-art weather testing strategies to refine window film solutions. Today 3M uses some of the most advanced weathering facilities in the world to develop thousands of products. Trust in the 3M brand to produce superior, high-performing products.

Sun Control, Safety, Security

Our exterior coat is up to 10 times tougher

No one knows abrasion like 3M. From sandpaper to Scotch-Brite™ Scouring Pads, this is another category in which we are a worldwide leader. This expertise has also taught us how to protect against abrasion. So to protect the film and your windows from scratches, we've created an exterior layer that is 6 to 10 times more durable than film alone.

Maximum UV protection

Our films block up to 99.9% of the sun's harmful ultraviolet rays, which are the single largest cause of fading. They also reduce the effects of solar heating and visible light, which contribute to fading. 3M™ Window Films will help extend the useful life of your carpets, window treatments, furniture and hardwood floors.

Warranty backed by one of the most respected companies*

What good is a lifetime warranty from a company that wasn't around 10 years ago and probably won't be here 10 years from now? Selecting 3M™ Window Films gives you peace of mind. That's because we have one of the most comprehensive warranties you can get; backed by a company you know and trust.

3M dealers make the difference

Our 3M Authorized Dealers are available to help solve problems like excessive glare and faded furnishings. They are skilled solution providers for glass safety, security, comfort and privacy.

Another great 3M product you can trust

In the home, in the office, in the lab and on the work site, every day people all over the world turn to 3M products. Our quality is unchallenged and our commitment to innovation is unmatched. From great consumer brands like Filtrete™ and Scotchgard™, to leading-edge technology and medical products, 3M has earned the world's trust.

Nearly 50 years of experience

No one has more experience with window films. In 1966, 3M received the first patent for window films. Today there are millions of meters of 3M Window Films installed around the world.

No one knows adhesives like 3M

From Scotch® Tape and Post-it® Notes to permanent construction adhesives, 3M is a world leader in adhesive technology. The adhesives we use with our window films provide a unique combination of fast drying, optical clarity and a long-lasting but removable bond.
