ControlRx®

**Prescription Dentifrice 1.1% Neutral Sodium Fluoride (5000 ppm F) (glossy page)**

**DESCRIPTION:** A self-applied dentifrice containing 1.1% Neutral Sodium Fluoride (5000 ppm F) and MICRODENT Persons with a known allergy to silica should not use SootheRx Mint, Tropical Fruit, and Cinnamon flavors in 10 oz. bottles with pump dispenser. If sensitivity returns, the remaining medication in the tube can be used to supplement the once weekly treatments. Accidental ingestion of individual dosage (ie: 1/8 oz. of PerioMed concentrate) is not harmful. If swallowed). Supervise children until capable of rinsing without supervision. For use by children under 6 years of age: do not give to children younger than 6 years of age. 

**DOSAGE AND ADMINISTRATION:** 1. Wet the head of a soft-bristled toothbrush, and apply a ribbon of SootheRx to the head of the toothbrush. 2. After brushing thoroughly with toothpaste, rinse, or use a dry toothbrush to brush teeth or placebo gel to avoid repeated swallowing of gel. Read directions carefully before using. Keep out of reach of infants and children. Not indicated for use by patients under 6 years of age.
