Cavestra™

Dentifrice Gel 1.1% Neutral Sodium Fluoride gel (50 ppm F)

DESCRIPTION:
- Neutral, gel form
- Fluoride containing 1.1% Neutral Sodium Fluoride (5000 ppm F) (w/v); MICRODENT
- A self-applied dentifrice containing 1.1% Neutral Sodium Fluoride (5000 ppm F) and MICRODENT.

DOSE AND ADMINISTRATION:
- For use only adults and children 6 years of age and up.
- Apply a thin film to the teeth and chewing surfaces of the mouth 3 or 4 times daily, preferably before meals, on a toothbrush or interdental brush.
- Do not swallow. Keep out of reach of infants and children. Not intended for use by patients under 6 years old.

ADVERSE REACTIONS:
- Fluoride gel: Potential adverse effects found in gel are similar to those reported with the gel formulations containing fluoride, but may be more common and severe due to the increased gel volumes applied to the oral mucosa.

OBSERVATIONS: Risks and side effects may be reported.

PeriMed
