

Victory Series™
Low Profile Braces

The smile of Victory.

If you're trying to decide which type of braces would suit you best, ask your orthodontist about Victory Series™ Low Profile Braces from 3M Unitek. They look better. They feel better. And, because of their lower profile, they're more comfortable to wear.

Find out today just how good flashing your new Victory smile can feel.

3M Unitek

Products that make your life easier.

Important Consumer Information

Victory Series™ Low Profile Braces

Victory Series™ Low Profile Braces may be used whenever braces are appropriate for treatment. Consult an orthodontist or qualified dental practitioner to evaluate your orthodontic needs. Victory Series braces should be placed and removed only by a qualified professional following the manufacturer's guidelines.

It is important to always follow your orthodontist's instructions for use and care of your braces to promote successful treatment and to avoid damage to either braces or tooth enamel.

Warning: Victory Series Low Profile Braces contain nickel and chromium. A small number of people are known to be allergic to these metals. Inform your orthodontist prior to treatment if you have known allergies. Consult a physician immediately if an allergic reaction occurs or is suspected.
