

# WildFire Cleanup Efforts for First Responders

3M provides health and safety products to help First Responders and Law Enforcement personnel respond to and clean up wildfires. 3M offers a variety of NIOSH approved respirators to help reduce exposure to ash, soot and other hazards common to wildland fire cleanup. 3M also offers protective eye wear, head protection products, and hearing protection products, as well as portable gas detection products that will help meet your safety needs.

For assistance on respirator selection, please see your supervisor, refer to [www.3M.com/OccSafety](http://www.3M.com/OccSafety) or call 3M Technical Service at 1-800-243-4630.

## 3M™ Eye, Head, Face and Hearing Protection Products

Personal protection during and in the aftermath of a wildland fire is crucial for first responders and law enforcement personnel. Together, your safe work practices and 3M™ Personal Protective Equipment help reduce your exposure to common fire hazards.

### Safety Goggles – 1620

Use of safety spectacles with side shields should be considered minimum protection at all cleanup sites. Includes safety spectacles, goggles and faceshields. Meets ANSI Z87.1-2003 requirements.

### 3M Soft Foam Ear Plugs – 1120

Use when operating heavy machinery or power tools. Reusable ear plugs are available with or without cord.

### 3M™ Portable Gas Detection

3M™ 110 Series Gas Detector: 3M™ Single Gas Detector 110 Series, Carbon Monoxide (CO). The 110 Series Detector helps firefighters to detect potentially hazardous levels of carbon monoxide gases during mop-up operations.

### 3M™ Thermal Imagine Camera FF131

3M™ Thermal Imaging Camera FF131: The 3M™ FF131 helps to identify hot spots during an overhaul or help find people or animals while avoiding hazardous objects.

### 3M™ Scotchlite™ Reflective Material

3M™ Scotchlite™ Reflective Material is recognized as a leader in high performance retroreflective material for enhancing worker visibility. Scotchlite reflective material on ANSI 207 emergency responder vests or ANSI 107 high visibility apparel (fire suits, coveralls, shirts and vests) can help law enforcement and fire fighters be seen.

### **⚠ WARNING: RESPIRATORS**

These respirators help reduce exposure to certain airborne contaminants. **Misuse of respirators may result in sickness or death.** For proper use, see *User Instructions* in package, supervisor, or call 3M Occupational Health and Safety Division (OH&ESD) Technical Service at 1-800-243-4630. In Canada, call 1-800-267-4414.

### **⚠ WARNING: EYE AND FACE PROTECTION PRODUCTS**

These eye and face protection products help provide limited eye and face protection against flying particles. **Misuse or failure to follow warnings and instructions may result in serious personal injury, including blindness, or death.** For proper use, see supervisor, read instructions and warnings on the package, or call 3M Occupational Health and Safety Division (OH&ESD) Technical Service at 1-800-243-4630. In Canada, call 1-800-267-4414.

### **⚠ WARNING: HEARING PROTECTION PRODUCTS**

These hearing protection products help prevent hearing loss against certain noises. To provide proper protection, the hearing protector should be (1) suitable for the job, (2) fitted properly in/on the ear, (3) worn during all times of exposure to noise, and (4) replaced when damaged or otherwise necessary. Failure to fit and use proper hearing protectors according to these instructions will reduce their effectiveness. **Failure to wear hearing protectors 100% of the time that you are exposed to hazardous noise may dramatically increase your risk of developing hearing loss.** Keep ear plugs away from small children. They may get caught in a child's windpipe. For more information, call 3M Occupational Health and Safety Division (OH&ESD) Technical Service at 1-800-243-4630. In Canada, call 1-800-267-4414.

### **⚠ WARNING: DETECTION PRODUCTS**

This instrument helps monitor for the presence and concentration level of certain specified airborne gases. Misuse may produce an inaccurate reading which means that higher levels of the gas being monitored may be present and could result in overexposure and **cause sickness or death.** For instruments with an oxygen sensor installed, misuse may produce an inaccurate reading where lower or higher levels of oxygen may be present and **cause sickness or death.**

Each person using this equipment must read and understand the information in the *User Instructions* before use. Use of this equipment by untrained or unqualified persons, or use that is not in accordance with the *User Instructions*, may adversely affect product performance and **result in sickness or death.** For proper use, see supervisor or *User Instructions*, or call 3M Occupational Health and Environmental Safety Division (OH&ESD) Technical Service at 1-800-243-4630. In Canada, call at 1-800-267-4414.
