

# 3M™ Roloc™ Bristle Disc Purple

Removes High Loading  
Materials Fast  
Doesn't Load

Roloc™ Bristle Disc Purple combines a very unique bristle design with a new polymer formulation, enabling it to remove high loading substrates (rubberised undercoating, seam sealers, rust and paint) quickly, while maintaining product life.

Part Number	Size	Colour	Grade/Scratch Equivalent	Application
07536	50mm	Purple	36/80	Use to remove rubberised undercoating, seam sealers, outer sill panel coatings, rust and paint quickly without loading. Abrades surfaces to bare metal.

Part Number	Diameter	Description	Shaft Size	Application
05539	50mm	3M™ Roloc™ Disc Pad Assembly	6.4mm	Provides firm support for Scotch-Brite™ Conditioning Discs

## WHY USE 3M™ ROLOC™ BRISTLE DISC PURPLE?

Features	Advantages	Benefits
Unique bristle design	Resists loading and clogging when removing high loading substrates	Effective / works fast
New polymer formulation	Stiffer bristles for longer life	Efficient / saves money / reduces waste
3M™ Roloc™ Attachment System	Scotch-Brite™ Roloc™ disc locks securely : ½ turn on, ½ turn off	Saves time / easy to use
3M™ Roloc™ Disc Pad Assembly	Ideal for use on right angle or straight shaft air tools	Versatile
Scotch-Brite™ Roloc™ Bristle Disc Purple contains no wire filaments	Potential for injury from flying wires is eliminated	Technician safety
