Adper™ Scotchbond™ Multi-Purpose Plus Adhesive
- Complete dental bonding system with dual-cure capabilities*
- Strong, reliable bonds for any application
- Bonds to wet or dry tooth surfaces
- Reduces microleakage that can contribute to post-operative sensitivity
- Streamlined technique for fast, easy use

Adper™ Scotchbond™ Multi-Purpose Plus Activator and Adper™ Scotchbond™ Multi-Purpose Plus Catalyst.

Adper™ Single Bond 2 Adhesive
- Excellent bonding to dentine and enamel
- Doesn’t need shaking; nanofiller is stable and will not settle
- Convenient bottle design allows easy opening and dispensing
- Use for direct and indirect restorations
- Reduces the risk of post-operative sensitivity
- Desensitizes hypersensitive root surface

Adper™ Scotchbond™ Multi-Purpose Plus Catalyst.

Adper™ Scotchbond™ SE Self-Etch Adhesive
- Colour-change indicator verifies coverage and etch activation
- Radiopacity reduces risk of misdiagnosing secondary caries
- Total etch performance
- High bond strength with proven chemistry and bonded nanofiller
- Reduces the risk of post-operative sensitivity
- Works on wet or dry enamel and dentine
- High marginal integrity and low microleakage
- Solvent-free hydrophobic overcoat for consistent performance
- Desensitizes root surface

Adper™ Easy Bond Self-Etch Adhesive
- One-bottle, one-coat convenience
- High bond strength with proven chemistry and filler
- Reduces the risk of post-operative sensitivity
- Works on wet or dry enamel and dentine
- High marginal integrity and low microleakage
- Desensitizes hypersensitive root surface
- Available in disposable Unit Dose delivery

*When used with Adper™ Scotchbond™ Multi-Purpose Plus Activator and Adper™ Scotchbond™ Multi-Purpose Plus Catalyst.

*Desiccation not recommended with any 3M ESPE adhesive products. All 3M ESPE adhesives are designed to tolerate a wide range of surface moisture conditions.

1. For these indications, the additional components of the Scotchbond™ Multi-Purpose Plus Adhesive System (bottle activator/bottle catalyst) are required.
2. When used in combination with 3M™ ESPE™ RelyX™ ARC Adhesive Resin Cement.
