

# Respiratory Protection

## 3M™ Particulate Respirator K100 Series

# Reliable and Convenient

### Protection you can afford

With the new K100 Series, 3M applies its technology to bring you solid, professional protection at an affordable price.

K100 flat-fold respirators are designed to be wearer-friendly, with the comfort and convenience workers need to make a long and demanding shift a little easier to face.

These respirators eliminate the need for costly, time-consuming maintenance.

All K100 respirators are backed with the kind of responsive technical support and dependable quality and supply that only a brand like 3M can offer.

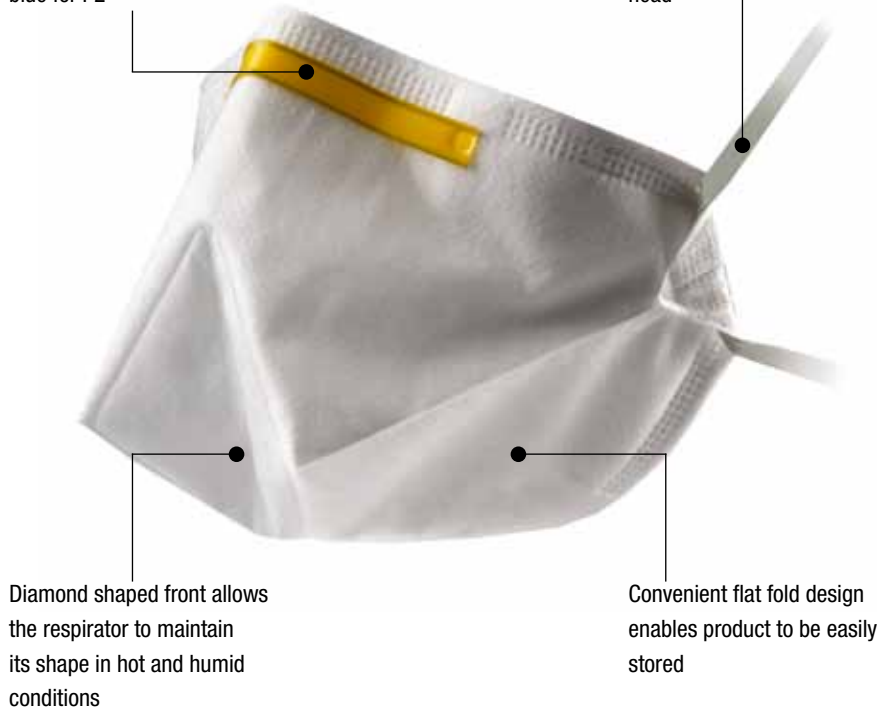

# 3M™ Particulate Respirator K100 Series

The 3M K100 range of particulate respirators can be used in many industries where workers are exposed to dust particles and/or fumes and smokes

Adjustable colour nose clip for a better fit and easy identification - yellow for P1, blue for P2

Staple free, single loop straps allows easy adjustment on the face and head
