## Fluoroplastic PVDF 315080003

**Product Description**

PVDF 315080003 is a flexible copolymer of vinylidene fluoride (VF<sub>2</sub>) and chlorotrifluoroethylene (CTFE), exhibiting very low shrinkage and excellent impact resistance. PVDF 315080003 also has a very low brittleness temperature, for excellent low temperature performance. As with all PVDF grades, PVDF 315080003 also possesses very good chemical and temperature resistance.

**Special Features**

- Copolymer of vinylidene fluoride (VF<sub>2</sub>) and chlorotrifluoroethylene (CTFE)
- Ultra-flexible
- Very low shrinkage rates
- Wide operating temperature range
- Processable using a variety of thermoplastic conversion techniques
- Excellent low flame and low smoke performance

Properties	Test method	Unit	Value
Density	ISO 1183	g/cm <sup>3</sup>	1.76
H <sub>2</sub> O Absorption	ISO 62 (Method 1, 24 hr @ 23 °C)	%	< 0.04
Melt Flow Index	ASTM D1238 (230 °C, 5 kg)	g/10 min	15
	ASTM D1238 (230 °C, 2.16 kg)	g/10 min	5
Tensile Strength at Break	ASTM D638 (23 °C, 50 mm/min)	MPa	22
Elongation at Break	ASTM D638 (23 °C, 50 mm/min)	%	475
Flexural Modulus	ASTM D790 (23 °C, 2 mm/min)	MPa	425
Melting Point	ASTM D3418	°C	169
Brittleness Temperature	ASTM D257	°C	-37
Surface Resistivity	DIN 53483 (23 °C)	Ω <sup>2</sup>	≥10 <sup>14</sup>
Volume Resistivity	DIN 53483	Ω·cm	≥10 <sup>14</sup>
Dielectric Constant	ASTM D150 (1 MHz)		7
UL – 94 Flammability Test	UL – 94		V-0 Class
Limiting Oxygen Index (LOI) (sheet 3 mm thick)	ASTM D2863	%	65

**3M™ Dyneon™**

Fluoroplastic PVDF 315080003

### Typical Properties

PVDF 315080003 has excellent flame and smoke performance, with an LOI of 65.

### Typical Applications

PVDF 315080003 is ideal for insulation and buffering materials for wire and cable applications and for tubing.

### Processing Recommendations

PVDF 315080003 is designed for high speed extrusion, and can be processed using a variety of conventional thermoplastic conversion techniques.

### Storage and Handling

PVDF 315080003 has an unlimited shelf life provided it is stored in a clean, dry place in the original unopened container received from 3M. The material is hydrophobic, and generally does not require drying before processing unless high humidity conditions create surface moisture adsorption.

### Safety Instructions

Follow the normal precautions observed with all fluoropolymer materials.

Please consult the Material Safety Data Sheet and Product Label for information regarding the safe handling of the material. By following all precautions and safety measures, processing these products poses no known health risks. General handling/processing precautions include: 1) Process only in well-ventilated areas. 2) Do not smoke in areas contaminated with powder/residue from these products. 3) Avoid eye contact. 4) If skin comes into contact with these products during handling, wash with soap and water afterwards. 5) Avoid contact with hot fluoropolymer.

Potential hazards, including release of toxic vapours, can arise if processing occurs under excessively high temperature conditions. Vapour extractor units should be installed above processing equipment. When cleaning processing equipment, do not burn off any of this product with a naked flame or in a furnace.

### Delivery Form

3M™ Dyneon™ Fluoroplastic PVDF 315080003 is delivered in granular form.

Packaging size is:

- 25 kg cardboard box, 1050 kg per pallet

3M™ Dyneon™

Fluoroplastic PVDF 315080003

**Important Notice**

All information set forth herein is based on our present state of knowledge and is intended to provide general notes regarding products and their uses. It should not therefore be construed as a guarantee of specific properties of the products described or their suitability for a particular application. Because conditions of product use are outside Dyneon's control and vary widely, user must evaluate and determine whether a Dyneon product will be suitable for user's intended application before using it.

The quality of our products is warranted under our General Terms and Conditions of Sale as now are or hereafter may be in force. Technical information, test data, and advice provided by Dyneon personnel are based on information and tests we believe are reliable and are intended for persons with knowledge and technical skills sufficient to analyze test types and conditions, and to handle and use raw polymers and related compounding ingredients.

No license under any Dyneon or third party intellectual rights is granted or implied by virtue of this information. General recommendations on health and safety in processing, on work hygiene and on measures to be taken in the event of accident are detailed in our material safety data sheets.

You will find further notes on the safe handling of fluoropolymers in the brochure "[Guide for the safe handling of Fluoropolymers Resins](#)" (download link) by PlasticsEurope, Box 3, B-1160 Brussels, Tel. +32 (2) 676 17 32.
