3M™ Protective Coverall 4510

Description
The 3M™ Protective Coverall 4510 is designed to help protect against certain light liquid splashes (Type 6) and hazardous dusts (Type 5).

The key features include:
- Constructed of quality laminated microporous material
- Elasticized waist, ankles, and wrists for convenience and freedom of movement
- Two-way zipper with storm flap
- Low-linting
- Anti-static coating on both sides

Materials
- Suit: Polypropylene/Polyethylene Laminate Film, White
- Zipper: Nylon on Polyester Braid
- Elastic: Neoprene Rubber
- Basis Weight: 47 grams/m²

This product does not contain components made from silicone or natural rubber latex.

Approvals

Comfort and Protection

Liquid Protection
Type 6 (EN 13034), Whole suit reduced splash test (EN ISO 17491-4:2008)*

Dust Protection
Type 5 (EN ISO 13982-1:2004), Inward Leakage results:

Anti-static
Anti-static coating on both sides (EN 1149-1:2006/ EN 1149-5:2008)**

Nuclear
Radioactive particulates (EN 1073-2:2002), Class 1***. Does not offer protection against radiation.

* In the whole suit test, liquid spray is applied to the subject for 1 minute. During this time the subject moves gently and is rotated through 360°. A total of 1.18 liters is sprayed from four nozzles. The clothing is allowed to drain for 2 minutes and then the absorbent coverall is inspected for stains which are compared to a calibration stain. Requirement: Passes when the stained area inside is smaller than 3 times the calibration stain area.

** All apparel must be suitably grounded for anti-static treatment to be effective. Electrostatic propensity may decrease with wearing time and/or severe conditions.

*** Except puncture resistance.

Applications and Performance

Non-Hazardous Particulates: Yes
Non-Hazardous Liquid Splash: Yes
Hazardous Liquid Splashes: No*
Hazardous Dusts and Fibers: Yes
Liquid Continuous Contact/Immersion: No
Acids/Alkalis: Yes, if chemical is compatible with suit material*

Gases and Vapors: No

Typical Applications

Typical applications may include asbestos inspection, coal dust in power plants, metal polishing, light-duty building cleaning, machine or vehicle maintenance, paint spraying, pharmaceutical, general industrial clean-up, insulation installation, general powder handling and food processing.

In all cases a risk assessment should be carried out. Users must be trained and have read all User Instructions. Use limitations and performance data should be considered to ascertain the protection required. If in doubt, contact a safety professional.

Performance

The table below shows the performance of this product when tested under laboratory conditions. Please note that the tests may not reflect the reality of use and do not account for factors such as excessive heat and mechanical wear.

** The maximum Class is 6 unless otherwise noted.
*** The European Standard EN ISO 6530 measures liquid penetration through a fabric and liquid repellency by a fabric. The test simulates exposure to small amounts of chemicals (10 ml) for 1 minute duration only. The penetration index refers to the percentage of the original quantity which penetrates the fabric within 1 minute (in a detector beaker) as a percentage of the original quantity.

* For additional chemical penetration and repellency data, please contact your local 3M Technical Service Representative.
Use Limitations

Do not use for:
- Contact with heavy oils, sparks or flames, or combustible liquids
- Exposure situations resulting in spray or liquid buildup on the suit
- Environments with high mechanical risks (abrasions, tears, cuts)
- Environments with exposure to hazardous substances beyond CE Type 5/6 certification
- Environments with conditions of excessive heat

Sizing

An appropriate size garment should be selected to allow sufficient movement for the task. Meets ANSI 101-1996 (R2008) sizing guidelines.

Storage and Disposal

- Store in dry, clean conditions in original packaging
- Store away from direct sunlight, sources of high temperature, and solvent vapors
- Store within the temperature range -20°C to +25°C (-4°F to +68°F) and with relative humidity below 80%
- Shelf life is three years from date of manufacture when stored as stated above
- Replace garments if damaged, heavily contaminated or in accordance with local work practice
- Handle and dispose of contaminated garments with care and in accordance with national regulations

Limited Use
- Do not tumble dry
- Do not wash
- Do not dry-clean
- Do not bleach
- Flammable — keep away from sparks or flames
- Do not iron

Product must never be altered or modified.

Important Notice

This guide is only an outline. It should not be used as the only means for selecting protective clothing. Before using any protective clothing, the wearer must read and understand the user instructions for each product. Specific country legislation must be observed. If in doubt, contact a safety professional. Sections of the most appropriate PPE will depend on the particular situation and should only be made by a competent person knowledgeable of the actual working conditions and the limitations of PPE.

Final determination as to the suitability of these products for a particular situation is the user’s responsibility. This information is subject to revision at any time. Always read and follow all User Instructions supplied with your 3M™ Protective Coveralls in order to ensure correct operation. If you have questions contact 3M Technical Service.

WARRANTY: 3M will replace or refund the purchase price of any Occupational Health and Environmental Safety Division (OH&ESD) product found to be defective in material, manufacture, or not in conformance with any express warranty. This warranty is exclusive and is in lieu of any implied warranty of merchantability or fitness for a particular purpose.

LIMITATION OF LIABILITY: Except as provided above, 3M shall not be liable or responsible for any loss or damage, whether direct, indirect, incidental, special or consequential rising out of the sale, use or misuse of 3M OH&ESD products, or the user’s inability to use such products. THESE REMEDIES SET FORTH HEREIN ARE EXCLUSIVE.
