Metal detectable earplugs and hygienic earmuffs are ideal for use when contamination prevention is critical. 3M hearing protectors offer comfortable choices to meet most wearer preferences and environmental needs.

- Comfortable, easy-to-use designs
- Designed to be detectable by metal-sensing systems
- Encased surgical-grade, stainless-steel bead
- Cords formulated with metal particles for detection
- Earplugs are test compatible with the 3M™ E-A-Rfit™ Validation System
Metal Detectable Classic™ Plus Earplugs
- Made with proprietary foam for a low-pressure, in-the-earcanal fit
- 20% longer than the 3M™ E-A-R™ Classic™ to fit deeper into the earcanal for increased noise reduction
- Metal detectable cord
- Resistant to water absorption

Metal Detectable UltraFit™ Earplugs
- Premolded to fit quickly with no rolling
- Smooth, pliable material for in-ear comfort
- Triple-flange design fits a wide range of earcanal sizes
- Washable and reusable
- Metal detectable cord available in 400 PR case only

Metal Detectable E-A-Rsoft™ Yellow Neons™ Earplugs
- Tapered shape and smooth textured foam conforms to the unique shape of each earcanal
- Bright color
- Metal detectable cord

Metal Detectable EXPRESS™ Pod Plugs™ Earplugs
- The original push-to-fit earplug
- Advanced foam formulation for comfortable noise reduction
- Quick and easy fitting with “paddle” style stems

Metal Detectable Push-Ins™ Earplugs
- Ready-to-use, no roll-down design for easy and hygienic fitting
- Advanced foam formulation for comfortable noise reduction
- Metal detectable cord

3M™ Peltor™ Food Industry Earmuff
- Engineered to meet the stringent hygiene demands of the food industry
- Smooth, non-porous headband
- Two-point suspension system for added comfort
- Lightweight earcups
- Washable and replaceable components

Choking Hazard—Keep away from infants and small children. These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in U.S.A. at 1-800-243-4630. In Canada, call Technician Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

* Note: Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill, and motivation of the user. It is recommended that the NRR be reduced by 50% to better estimate typical workplace protection.
