Hearing Protection
Hearing Protection by 3M
Service beyond the product, solutions beyond the obvious, understanding beyond the function and knowledge beyond safety. You can buy 3M confident in the knowledge that our products will do the job and you can also be rest assured that our product range is backed by first class support materials and specialist advice, so you’ll always know where to turn.

Hearing protection must be right for you and your situation. For safety, productivity and comfort, it must reduce noise by the right amount, not too little and not too much. 3M can provide solutions for different individuals and applications, with products ranging from disposable ear plugs to high-tech electronic ear muffs.

Hearing Conservation
3M brings together the leading brands in hearing conservation. E-A-R, Peltor and 3M brands provide you with the most complete Hearing conservation programme to ensure detection of noise, protection for your employees and validation of their hearing protectors. All this for a single purpose: your safety.

Detection, protection and validation - now you have easy, single source access to the most complete line of industry-leading hearing conservation products:
Noise Indicator

3M has introduced a new personal noise indicator solution that lets you know when the sound level reaches 85dB(A) and the need to wear suitable hearing protection. A new personal information tool dedicated to raise noise awareness with employees. This can also be a perfect solution for training and motivational purposes.

3M E-A-Rfit™ Validation System

Stop guessing what protection levels your Workers are really getting from their earplugs. Start knowing each worker’s personal protection level and Validate that they are getting the protection they need.

Ear canal shapes are different. Fitting methods are different. That means protection levels may be different.

With the E-A-Rfit validation system, you can:
- Validate protection levels achieved by each worker
- Document data for future reference

Test Compatible With A Variety of 3M™ Hearing Protectors.

Protection levels can be validated with many different 3M hearing protectors. This selection includes specially-probed versions of foam and premoulded earplugs.

3M Optime™ Alert System

Our system uses a simple, logically coloured classification to make the selection process easy. Firstly find out what your noise level is, then look at the icons below and establish which noise band (RNR) your noise level falls into. Take note of the icon and choose from the wide range of products featuring the correct icon (see summary table on next page).

*RNR = Recommended Noise Rating

The 3M Optime™ Alert system has been incorporated into the 3M SD-200 sound detector that highlights the appropriate 3M hearing protection required.
3M Optime™ Alert System by Product

**GREEN OPTIME™ ALERT SYSTEM**
- **RNR** < 85dB(A)
  - Ultrafit 14 Earplugs - SNR 14dB
  - E-A-Rflex 14 Earplugs - SNR 14dB

**YELLOW OPTIME™ ALERT SYSTEM**
- 83 dB(A) - 93 dB(A)
  - E-A-Rsoft 21 Earplugs - SNR 21dB
  - Ultrafit 20 Earplugs - SNR 20dB
  - Clear E-A-R 20 Earplugs - SNR 20dB
  - Tracer 20 Earplugs - SNR 20dB
  - Ultratech Earplugs - SNR 21dB
  - E-A-Rflex 20 Earplugs - SNR 20dB
  - E-A-Rband Earplugs - SNR 21dB
  - Caboflex Earplugs - SNR 21dB

**RED 1 OPTIME™ ALERT SYSTEM**
- 87 dB(A) - 98 dB(A)
  - Classic Earplugs - SNR 29dB
  - Express Earplugs - SNR 29dB
  - 1261/1271 Earplugs - SNR 25dB
  - E-A-Rcaps Earplugs - SNR 23dB
  - Flexicap Earplugs - SNR 23dB
  - Pulsar Earplugs - SNR 23dB
  - Swerve Earplugs - SNR 24dB
  - 1310 Earplugs - SNR 26dB
  - Reflex Earplugs - SNR 26dB
  - Model 5000 Earmuffs - SNR 27dB
  - Optime I Earmuff - SNR 26/27/28dB (depending on the version)
  - Bulls’eye I Earmuff - SNR 27dB
  - H 31 Earmuff - SNR 27/28 dB (depending on the version)

**RED 2 OPTIME™ ALERT SYSTEM**
- 94dB(A) - 105dB(A)
  - Classic Corded Earplugs - SNR 29dB
  - Pro-Seals Earplugs - SNR 29dB
  - Torque Earplugs - SNR 32dB
  - Tri-Flange Earplugs - SNR 29dB
  - Tracer Earmuffs - SNR 32dB
  - Ultratech Earplugs - SNR 29dB
  - Optime I Earmuff - SNR 30/31dB (depending on the version)
  - PTL Earmuff - SNR 29/31dB Depending On The Version
  - Bulls’eye II Earmuff - SNR 31dB

**RED 3 OPTIME™ ALERT SYSTEM**
- 95 dB(A) - 110 dB(A)
  - Classic Soft Earplugs - SNR 36dB
  - Superfit 33 Earplugs - SNR 33dB
  - 1120/1130 Earplugs - SNR 34dB
  - E-A-Rsoft Neons Earplugs - SNR 36dB
  - E-A-Rsoft Blasts Earplugs - SNR 36dB
  - E-A-Rsoft Metal Detectable Earplugs - SNR 36dB
  - Solar Earplugs - SNR 36dB
  - 1100/1110 Earplugs - SNR 37dB
  - E-A-Rsoft Fx Earplugs - SNR 39dB
  - No-Touch Earplugs - SNR 35dB
  - Push-Ins Earplugs - SNR 38dB
  - Ultratech X Earplugs - SNR 35dB
  - Optime II Earmuff - SNR 34/35 dB (depending on the version)
  - Bulls’eye II I Earmuff - SNR 35dB

**PLEASE NOTE:**
At levels above 95dB(A) you will need an accurate noise assessment to correctly select the product. Green and Yellow marked products are not suitable for use in low frequency noises.
Roll Down PU Foam Earplugs

Our Roll Down Earplugs are made from expandable Polyurethane (PU) foam, which provides great comfort and good protection. The one size fits most ear canals. Once inserted in the ear, the foam plugs expand to provide a snug and secure custom fit. 3M provides a wide range of disposable roll down PU foam earplugs to choose from and to find the best solution for your individual needs.

Features and Benefits:

Comfortable
- Soft hypoallergenic foam material for lower pressure inside the ear
- Smooth, dirt resistant surface for better hygiene, durability and comfort

Convenient
- Tapered design fits most ear canals making the plugs easier to use
- One size only
- Dispenser available (1100)
- Polyester cord (1110) helps prevent hearing loss

Effective
- High SNR of 37dB

Compatible with
- Designed to be compatible with other PPE

E-A-R™ One-Touch™ Dispenser

Now 3M One-Touch dispenser also available to dispense 3M 1100 and 1120 ear plugs.
E-A-R™ Classic™ Earplugs

Classic earplugs are made from a soft energy absorbing polymer foam which provides excellent hearing protection and all day comfort. The famous Classic earplugs are roll down plugs and are available in multiple options to accommodate different wearer needs.

Features and Benefits:

**Comfortable**
+ Soft energy absorbing foam offers a low equilibrium pressure
+ Sweat and humidity resistant, helps prevent moisture build up in the ear canal
+ Design to fit majority ear canal sizes with optimum comfort and protection.

**Effective**
+ Exposed cell surface texture resists movement and helps maintaining an effective seal

**Convenient**
+ Packed in a handy and resealable Pillowpack
+ Compatible with E-A-Rfit™ validation system to check Personal Attenuation Ratings

**Compatible with**
+ Designed to be compatible with other PPE

Pod Earplugs

Pod earplugs are very easy to insert since there is no roll down needed: just use the soft flexible grip to push the earplug into position and achieve excellent protection. Because you do not have to touch the foam during fitting it is one of the most hygienic types of earplug available.

Features and Benefits:

**Comfortable**
- Unique pod design allowing the foam to compress easily
- The plug slides gently into the ear and expands slowly
- Patented E-A-Rfoam tip shaped and sized to mold comfortably fitting virtually every size ear canal

**Convenient**
- Available corded or uncorded
- No roll down required
- Washable and reusable
- The insertion stem eliminates the need to touch the tip: no need to clean your hands

**Compatible with**
- Designed to be compatible with other PPE

Pre Moulded Earplugs

Pre Moulded plugs are made from flexible materials that are preformed to fit the ear. They are generally available with a joining cord to prevent loss. These reusable earplugs are comfortable, hygienic and economical. No sizing is required for these patented, pre-moulded, triple flanged earplugs. Available in a variety of styles and protection levels.

Features and Benefits:

**Comfortable**
- Unique and patented tri-flange design for a perfect fit and comfort
- Easy to fit in the ear for a continuous and comfortable protection

**Effective**
- High attenuation (SNR: 29dB)

**Convenient**
- Available with a cord to prevent loss
- Washable and reusable
- Compatible with E-A-Rfit™ validation system to check Personal Attenuation Ratings

**Versatile**
- Different versions to various use: traceable, high and low attenuation versions

**Compatible with**
- Designed to be compatible with all types of PPE

Banded Earplugs

Banded hearing protectors are easy to use, convenient and extremely comfortable. They are quick to insert and remove and can be stored around the neck when not required, making them ideal for intermittent use. Banded hearing protectors offer simplicity to help improve the choice of hearing protection products that best suits the workplace environment. Most models are available with replacement pods making them a more cost-effective option.

Features and Benefits:

**Comfortable**
- Extremely light
- Very low pressure into the ear
- Pod plugs seal the entrance part of the ear canal with no deep insertion

**Convenient**
- Can be worn in either Under-The-Chin (UTC) or Behind-The-Head (BTH)
- Easy to use
- Ideal for people moving in and out
- Replacement pods available

**Compatible with**
- Designed to be compatible with other PPE

Peltor™ Optime™ I Earmuffs

Peltor™ Optime™ I Earmuffs offer versatile and lightweight protection with increased wearer comfort. The low profile design coupled with generous space inside the cups helps improve compatibility with other safety equipment and maximizes wearer comfort. Peltor™ Optime™ I is ideal choice for intermittent and prolonged usage. The wide, comfortable sealing rings are filled with a unique combination of fluid and foam, which gives optimum sealing and low contact pressure at the same time.

**Features and Benefits:**

**Comfortable**
- Extremely low profile and light-weight design (180g) that helps improve compatibility with other safety equipment
- Generous space inside the cup to help improving comfort
- Soft and wide sealing rings filled with a unique combination of foam and liquid to offer optimum sealing and low pressure

**Effective**
- Moderate attenuation despite lightness and low profile design: 27dB SNR
- Unique band design, stainless steel wire for constant pressure over long periods of use

**Versatile**
- Available in several versions including: Headband, foldable, neckband and helmet mounted versions. All versions are available in high visibility colours

It is ideal for use in many work environments with moderate industrial noise, such as light engineering, automotive industry, sheet-metal working as well as outdoor leisure or hobby activities such as lawn mowing and woodworking, for example.

---

**Peltor™ Optime™ I Headband**
SNR: 27dB

**Accessories**
- Hygiene kits are available for each earmuff version
- Hygienic paper pads are available; Peltor Clean in two versions (HY100A - 100 pairs on a roll in a dispenser, HY100A-01 - 20 packages x 5 pair in a dispenser). Same version for all ear muff models.

---

**Other Peltor™ Optime™ I Ear Muffs**

**Peltor™ Optime™ I Neckband**
No headband, offers excellent compatibility with other PPE equipment. SNR: 26dB

**Peltor™ Optime™ I Foldable Headband**
Easy-to-store solution SNR: 28dB

**Peltor™ Optime™ I Hi-Viz**
For workers in need of extra visibility, for example road workers and ground handling staff at airports. Available in all versions. SNR: 26dB
Peltor™ Optime™ II Earmuffs

The Peltor™ Optime™ II has been developed for demanding noisy environments and is effective in reducing even extremely low frequency sound. The sealing rings are filled with a unique combination of liquid and foam. The result is an optimum seal with low contact pressure, which provides agreeable comfort even during long periods of use. The sealing rings have ventilation channels and are covered with soft, patterned, hygienic foil. Optime™ II earmuffs are a suitable choice for typical environments with substantial industrial noise or construction machinery, airports and agricultural work. The product is also available in a di-electric version without visible metal parts and in Hi-Viz green for workers who need hearing protection and to be extra visible – on road construction sites, airports or other high-risk workplaces.

Features and Benefits:

**Comfortable**
- Generous space inside the cup to help the ears breathe thus improving comfort
- Soft and wide sealing rings filled with a unique combination of foam and liquid to offer optimum seal and low pressure
- Sealing rings with ventilation channels and covered with soft, patterned hygienic foil

**Effective**
- High attenuation despite lightness and low profile design: 31dB SNR
- Unique band design, stainless steel wire for constant pressure over long periods of use

**Versatile**
- Available in several versions including: Headband, foldable, neckband and helmet mounted versions. All versions are available in high visibility colours

3M™ Passive Hearing

Peltor™ Optime™ II Push To Listen (PTL)
Optime™ Earmuff with a listening function. Just push the button to enable audibility of external sounds without the risk of any noise induced hearing damage. SNR: 29dB
Also available in Hi-Viz and Helmet mounted version (SNR: 29dB)

Peltor™ Optime™ II Food Industry Earmuff
Hygienic evolution of standard Peltor Optime II
Easy to clean, moisture resistant SNR: 30dB

Peltor™ Optime™ II Helmet attachment
Can be worn with a wide range of industrial safety helmets SNR: 30dB

Peltor™ Optime™ II Headband
SNR: 31dB

Accessories
Hygiene kits are available for each earmuff version
Hygeinic paper pads are available;
Peltor Clean in two versions (HY100A - 100 pairs on a roll in a dispenser, HY100A-01 - 20 packages x 5 pair in a dispenser). Same version for all ear muffs models

Other Peltor™ Optime™ II Ear Muffs

Peltor™ Optime™ II Neckband
No headband, offers excellent compatibility with other PPE equipment. SNR: 31dB

Peltor™ Optime™ II Foldable Headband
Easy-to-store solution SNR: 31dB

Peltor™ Optime™ II Hi-Viz Headband
For workers in need of extra visibility, for example road workers and ground handling staff. Available in all versions. SNR: 31dB
Peltor™ Optime™ III Earmuffs

The Peltor™ Optime™ III is a high performance hearing protector that has been specifically developed for use in extremely noisy environments. The protection is based on a twin cup technology that minimise resonance thus significantly improving attenuation at high frequencies. An acoustic connection between the inner volume and the volume between the twin cup provides significant low-frequency attenuation. The sealing rings are broad and filled with soft plastic foam for best fit and low contact pressure. The Peltor™ Optime™ III earmuffs stand for effective protection and highest comfort for the wearer. The product is also available in Hi-Viz green for workers who need hearing protection and to be extra visible – on road construction sites, airports or other high-risk workplaces.

Features and Benefits:

Comfortable
+ Generous space inside the cup to help the ears breathe thus improving comfort
+ Broad sealing rings
+ Sealing rings filled with soft plastic foam for the best fit and low contact pressure

Effective
+ Very high attenuation: SNR of 35dB
+ Unique band design, stainless steel wire for constant pressure over long periods of use
+ Twin cup design that minimises resonance resulting in excellent high-frequency attenuation

Versatile
+ Available in several versions including: Headband, foldable, neckband and helmet mounted versions. All versions are available in high visibility colours

Peltor™ Optime™ III Headband
SNR: 35dB

Accessories
Hygiene kits are available for each earmuff version
Hygienic paper pads are available;
Peltor Clean in two versions
(HY100A - 100 pairs on a roll in a dispenser, HY100A-01 - 20 packages x 5 pair in a dispenser). Same version for all ear muff models.

Other Peltor™ Optime™ III Ear Muffs

Peltor™ Optime™ III Helmet attachment
Can be worn with a wide range of industrial safety helmets
SNR: 34dB

Peltor™ Optime™ III Hi-Viz Headband
For workers in need of extra visibility, for example road workers and ground handling staff at airports. Available in all versions.
SNR: 35dB
3M™ Sound Detector SD-200 with Optime™ Alert System Linkage

Easily Select hearing protection
The Sound Detector SD-200 is a compact, lightweight sound level meter designed to accurately measure workplace noise levels. Green, yellow and red LEDs flash the colour that corresponds to the Optime Alert System, making it easy to select the appropriate level of hearing protection.

Features and Benefits:
+ Integrating feature computes the average sound pressure level; allows for more accurate assessment of intermittent sound levels
+ User-friendly interface; easy to operate
+ Rechargeable lithium polymer battery helps lower Total Cost of Ownership compared to the use of replaceable batteries
+ Average sound pressure level delivers steadier reading where noise levels are variable

3M™ Noise Indicator NI-100

The 3M™ Noise Indicator alerts users to potentially dangerous noise levels, helping to identify areas where hearing protection may need to be worn. Users simply clip the Noise Indicator to a shirt or jacket; its LED light delivers a clear indication when noise levels exceed a potentially hazardous threshold.

Features and Benefits:
+ Clips to wearer’s shirt or can be worn on a lanyard
+ Small size and lightweight, durable design
+ Easy to use, with a single button on/off switch
+ Rechargeable battery, with up to 200 hours between charges
+ Alerts users to potentially dangerous noise levels
+ Helps identify where hearing protection may be needed

Green Flashing LED:
+ Noise levels are below 85dB(A) – hearing protection may not be necessary.

Red Flashing LED:
+ Noise levels are above 85dB(A) – hearing protection may be required.
The Sound Examiner SE-400 series of sound meters are engineered to accurately measure noise levels in highly variable environments. These advanced instruments compute the average sound pressure level (LEQ/LAVG) over the run time, helping you to more accurately assess occupational and environmental noise levels.

**New DMS Software: Data Management Made Easy**

For Environmental Monitoring, Heat Stress and Sound Level Measurements, and Dosimetry.

The new 3M™ Detection Management Software (DMS) makes it easy to export, report, and share data from the SE-400 series sound meters, and other 3M Quest instruments. The software will help improve both efficiency and reporting of environmental data.

- Retrieve, download, share and save instrument data
- Generate charts and reports
- Export and share recorded data
- Perform advanced calculations
- Program, retrieve and view real-time data remotely via modem

**Features and Benefits:**
- Available in Class 1 Precision or Class 2 General Purpose models
- Complies with IEC and ANSI Standards
- Integrating-averaging measurements
- All models ship ready-to-use, no setup necessary
- Use 3M™ Detection Management Software DMS for the analysis, management and measurement of data

**Integrating Measurements, Robust Capabilities**

- **Display Languages:** English, Spanish, German, French, Italian, Portuguese
- **Display SPL, LMAX, LMIN, Peak, Lavg/Leq, Elapsed Time**

**Detection Management Software:**

**One System supporting all these applications:**
- Noise Dosimetry
- Octave Band Sound
- Analysis/Survey
- Thermal Comfort Monitoring
- Integrating Sound Level Meter
- Industrial and Community Sound Surveys
- Heat Stress Monitoring
- Indoor Air Quality Assessment
The 3M™ SoundPro™ SE/DL series provides advanced sound level monitoring and comprehensive data analysis. Available in Class 1 and Class 2 models, these instruments feature real-time frequency analysis, and data storing capabilities that make it easy to post-process and evaluate workplace noise levels.

**Features and Benefits:**
- ANSI and IEC standards compliant
- Available in Class 1 Precision or Class 2 General Purpose models
- Concurrent A-weighted and C-weighted measurements
- A, C, Z and F (Flat) frequency weighting
- Fast, slow, and IEC impulse time response
- Selectable thresholds 10 dB – 140 dB
- Optional downloads to 3M™ Detection Management Software DMS offer analysis, management and measurement of data
- Multilingual display in English, French, Spanish, German, Italian & Portuguese
- Display SPL, Dose, Lavg or Leq, TWA, Max, Min, Peak, Exposure, Run Time, and more
- Large screen display enables real-time frequency analysis
- Easy to read back-lit display
- Menu driven, 4 soft keys

**SoundPro Outdoor Measuring System SP-OMS**

The SoundPro Outdoor Measuring System helps protect the instrument from exposure to wind, rain, snow, chemicals, particulates, animals, vandalism and theft. It is also used for extended battery life with up to one week of continuous monitoring (two weeks with optional second battery).

**Other Options:**
- Full (1/1) octave band real-time analysis
- Third (1/3) octave band real-time analysis
- Acoustic spectral curves option
- Speech intelligibility option
- Audiometric calibration kit configurations
- GPS data incorporation
- Optional microphones in 1/4", 1/2" & 1"
- Reverberation Time (RT-60)
3M™ The Edge Cable Free Noise Dosimeters

Now there’s a new, more innovative family of personal noise dosimeters. Available in three models, The Edge offers advanced technology packaged in a cable-free, compact frame for a lighter, more ergonomic way to monitor noise levels.

With The Edge there’s no cable to interfere with your employees’ work, and no heavy instrument loading them down. This innovative dosimeter weighs a mere 3 ounces and features a thin, contoured shoulder mount. Users will barely notice it as they work; yet with easy downloading, simple.

Features and Benefits:
+ Convenient cable-free design eliminates the microphone cable and potential to get in the way
+ Thin, contoured mount hugs the shoulder
+ Compact frame offers superior comfort small size and lightweight, durable design
+ Rechargeable lithium battery gives The Edge its long battery life
+ Downloads to 3M™ Detection Management Software DMS offer analysis, management and measurement of data
+ Display SPL, Dose, Lavg or Leq, TWA, Max, Min, Peak, Exposure, Run Time and more

Two Affordable models:
+ The Edge eg5 has 3 independent dosimeters and data logging. It stands apart as an intrinsically safe dosimeter that offers simultaneous C-weighted and A-weighted measurements.
+ The Edge eg4 advanced model has dual dosimeters and data logging/time history.

+ The Edge eg5 has 3 independent dosimeters, is intrinsically safe and offers simultaneous C-weighted and A-weighted measurements.
+ Displays SPL, Dose, Lavg or Leq, TWA, Max, Min, Peak, Exposure, Run Time and more
+ 1 or 5 bay docking stations offer quick, easy recharge and data download to a PC
