

3M Infection Prevention Solutions

3M™ Comply™ Lead Free Indicator Tape
for Steam Sterilization

Not Made with Natural Rubber Latex

Lead Free

Solvent Free Hassle Free

Why it is so important to “get the lead out.”

Standardizing on lead-free products, such as 3M™ Comply™ Steam Indicator Tapes, makes good sense – by helping to simplify operations, avoid the risk of penalties for non-compliance, and enhancing your reputation for good environmental stewardship.

3M adhesives are engineered to fit our customers' needs and are used in such diverse products as airplanes and cell phones. The industry-standard product for exposure monitoring now has even more to offer.

- Does not require hazardous waste disposal
- Redesigned packaging uses up to 30% less plastic
- Convenient, individually wrapped, easy-to-open rolls
- Sustainable, solvent-free manufacturing process

the Way

Ordering Information

Indicator Tapes

These Comply Indicator Tapes (ANSI/AAMI/ISO Class 1 Process Indicators) show *at-a-glance* whether packs have been exposed to a steam sterilization process and function as a closure to securely seal the sterilization packs. They accept hand-writing and labeling for recordkeeping information.

Best Practices

Always place an AAMI Class 1 Process Indicator* on the outside of every pack, wrapped tray, container or peel pouch, unless the internal chemical indicator is readily visible.

Unexposed

Exposed

Unexposed

Exposed

The chemical indicator ink, printed in a diagonal striped pattern, changes color or turns darker when exposed to steam.

Catalog Number	Product Name	Size	Rolls/Intermediate	Rolls/Case
1322-12MM	3M™ Comply™ Lead Free Steam Indicator Tape (designed for use on all wraps)	0.47 in x 60 yd (12mm x 55m)	–	42
