Re: Changes to the box of the 3M™ Tie-on Surgical Mask with Face Shield 1818FSG

Dear Valued 1818FSG Face Shield Mask Customer,

You are receiving this letter in an effort to bring attention to a packaging change with the 3M™ Tie-on Surgical Mask with Face Shield 1818FSG. It should be noted that the physical product itself has not changed. It is the same great product you have come to expect from 3M. Below is a list of what has changed versus what has not changed with the packaging and pictures of the boxes.

**Changed:**

- Packaging is now global so you will see multiple languages
- 1818FSG is now 1818FS
- The image of the mask is replaced with an image of a clinician wearing the mask
- SKU Change
  - From 1818FSG: 70-2007-7132-0
  - To 1818FS: 70-2007-7131-2

**Unchanged:**

- Pictorial directions for application
- The physical mask itself is the same
- Quantity of masks in a box – 50
- Do not reuse and Latex-Free symbols
