

3M Application Profile

Market: General Industrial

Application Description: Bundling wire harnesses and protecting sensitive cables and flexible tubes from abrasion, heat and flame sources.

Application Detail

Used in a variety of applications, such as protecting wire harnesses, electrical cables or hoses in markets such as automotive, aerospace and appliance.

Key Application Requirements

Abrasion-, puncture-, tear- and flame-resistance; flexible and conformable.

Benefits/Advantages To Customer

High strength, high durability: Resists tearing and puncturing.

Conformable backing: Conforms well to many irregular surfaces and wrapped assembly; flexibility is retained.

Abrasion-resistant: Decreases wear and tear on wrapped assemblies.

Heat- and flame-resistant: Meets FAR spec 25.853 flammability requirements.

Easy to apply: Pressure-sensitive adhesive makes it easy to wrap around the wiring harness on the assembly line

PRODUCT

3M™ Glass Cloth Tape 361

Additional Product Information/Related Products

3M™ Glass Cloth Tape 361: White, 7.5 mil (0.19 mm) glass cloth tape with silicone adhesive.

3M™ Thermosettable Glass Cloth Tape 365: White, 8.3 mil (0.20 mm) glass cloth tape with thermosettable rubber-resin adhesive.

3M™ Flame Retardant Sealing Tape 398FR: White, 7.0 mil (0.18 mm) glass cloth tape with acrylic adhesive.

3M™ High Temperature Aluminum Foil/Glass Cloth Tape 363: Shiny silver, 7.3 mil (0.185 mm) aluminum foil/glass cloth tape with silicone adhesive. Provides additional protection by reflecting radiant heat.

Qualified for Industry Specifications

Tapes 361, 363, and 398FR meet FAR spec 25.853 flammability requirements.

Other Markets to Consider

Appliance, Aerospace, Electronic, Marine and Specialty Vehicles, Construction, MRO.

Product Use

All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

Warranty and Limited Remedy

Unless stated otherwise in 3M's product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. **3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.

Limitation of Liability

Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including warranty, contract, negligence, or strict liability.
