

Quality Assurance	A 3M™ Full Page Reader is provided for checking completed documents. The Quality Assurance feature validates the document by ensuring that the printed MRZ conforms to International Civil Aviation Organization (ICAO) Document 9303, Part 3 standards.
Verification of SID Information	Prior to delivery of the SID card to an applicant, the barcode is verified to ensure it is properly encoded. A barcode reader reads the 2D barcode. A fingerprint sensor and associated software verifies that the fingerprints encoded within the 2D barcode match the applicant.
Inventory Control	Inventory Control tracks all the documents at a site. Unique numbers on each document identify the operators who access new, unused and spoiled stock. Inventory Control also allows authorized operators to void and dispose of documents when required.
User Administration	The system administrator performs a variety of tasks, which regulate the document production process: <ul style="list-style-type: none"> • Create and configure user accounts • Manage user roles
Reports	Reports provide a summary of different document issuance activities over a period of time or for a specific date. The 3M SID system offers the following standard reports: <ul style="list-style-type: none"> • Work In Progress Status • Production Operator • Disposed Documents • Audit • Production Summary • Delivered Documents
Minimum PC Specifications	Software must be installed on a customer-supplied PC, or on an optional 3M CPU module. If the software is to be installed on a customer-provided PC, the following <i>minimum</i> configuration is recommended to maintain the processing speed indicated above: <ul style="list-style-type: none"> • 1.7 GHz Pentium 4 • USB 2.0 • 256 Mb DRAM • Windows 2000-SP4 or XP • 80 Mb of Hard Drive space for software
Service & Maintenance	<ul style="list-style-type: none"> • One-year warranty • 24-hour service request via toll-free number • Annual maintenance agreement available
Contact 3M	<ul style="list-style-type: none"> • www.3M.com/security/IA • +1 613-722-2070 or 1-800-581-2631

Important Notice to Purchaser: Because conditions of product use are outside 3M's control and vary widely, use must evaluate and determine whether a 3M product will be suitable for user's intended application before using it. THE FOLLOWING IS MADE IN LIEU OF ALL EXPRESS AND IMPLIED WARRANTIES OR CONDITIONS (INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE). If a 3M product is proved to be defective, 3M's only obligation, and user's only remedy, will be, at 3M's option, to replace the quantity of product shown to be defective when user received it or to refund user's purchase price. In no event will 3M be liable for any direct, indirect, special, incidental, or consequential loss or damage including, but not limited to, lost profits, regardless of legal theory, such as breach of warranty or contract, negligence, or strict liability. 3M Security Systems Division offers a range of security products to protect against article and/or document and/or identity counterfeit, alteration, diversion, duplication, simulation and substitution. However, no security products can guarantee absolute protection against attempts to successfully accomplish these illegal activities.
