

Liberty QX Detection System

Checkpoint®

High performance, small footprint

Designed to provide the greatest flexibility in tight spaces, Liberty QX fits easily into areas that are too small for traditional detection systems. The Liberty product line represents the ultimate in radio frequency (RF) detection systems, featuring patented Digital Signal Processing (DSP) technology. With impact resistant thermoplastic and protective stainless steel end caps, Liberty QX is engineered to stand up to a busy library environment.

Design/Install options

- 36" corridor width
- Unlimited number of corridors
- Variety of mounting options including direct mount, base plate or buried cable.
- Meets ADA requirements.

Excellent Security

- Designed for use with Checkpoint RF tags
- Advanced Digital Signal Processing
- Audible and visual alarm
- Safe for all media types
- Advanced filtering algorithms maximize alarm integrity

Reliable Performance

- Independent lattice alarms allow easy alarm identification
- Lattices can be disabled/enabled individually.
- High-durability base protects electronics from dust, cleaning fluids, etc.

Lattice Dimensions

66.5" h x 12.0" w x 1.25" d
(1689 mm x 305 mm x 32 mm)

Base Depth: 3.5" (89mm)

Lattice Construction

Frame: Textured, molded-through color, impact resistant injection-molded plastic

Frame Endcaps: Brushed stainless steel

Base: Texture, molded-through color, impact resistant injection-molded plastic

Weight: 20 lbs. (9.12kg)

Energy Profile

100-240V, 1.6 A max.

50-60 Hz.

60-70 VA power supply

Energy Star rated (U.S.)

Accessories Available

Patron Counters

Remote Alarm
