

# Design Solutions That Drive Profitability

Scotchgard™ Paint Protection Film is an industry leader in durable, high-grade, colorless urethane film that is applied to high impact areas of vehicles. Professional applicators across the globe use Scotchgard™ Paint Protection Film for all their customers needs. From the same company that developed this top of the line film comes a solution for paint protection film patterns; 3M™ Digital Designs.

3M™ Digital Designs is a paint protection film software system containing hundreds of patterns for the most popular current model year automobiles. Kits designed for hoods, fenders, side mirrors, front grills, bumpers, door edges, rear bumper shelf, A-pillars and the leading edge of roofs are easily accessible through our PC-Web based software.

### 3M™ Digital Designs patterns:

- Designed for the unique features of 3M™ Scotchgard™ paint protection film
- Easier to install
- Require less stretch
- Look better on the vehicle
- Validated by leading industry installers

### 3M™ Digital Designs software:

- Comes with username and password
- Easy selection and viewing of patterns
- Tracks history of patterns cut for kits.

3M Digital Designs Software CD
