

RSES Journal's 2008

3M OH&ESD's
Full Facepiece Respirator

The staff at *RSES Journal* and RSES formally congratulates 3M OH&ESD for winning an *RSES Journal* 2008 Readers' Choice Award.

The Full Facepiece Respirator was rated as one of the most-inquired-about products in 2008.

Winners receiving this award had the highest overall number of reader inquiries throughout the 2008 calendar year. Using the Reader Service numbers provided with each product mention and/or advertisement, readers sent inquiries via mail, fax, E-mail and Web site.

You will find the following enclosed in this package: this congratulatory letter; an official *RSES Journal* 2008 Readers' Choice Award plaque; and a copy of the booth placard that we gave to the winners that attended the 2009 AHR Expo in Chicago. All of the 2008 Readers' Choice Award winners and their products will be featured in the March 2009 issue of *RSES Journal*. A copy will be mailed to you.

Again, congratulations for winning this award.

Sincerely,
