

Emergency Preparedness Response & Recovery

We live where you live.

Preparing for and responding to natural and man-made disasters is one of the biggest challenges facing organizations in the private and public sector.

Government, industry, distribution and the community must work together to build a successful preparedness plan and foundation for an effective response.

3M's technology, expertise and support can help provide much of what you need *before, during and after* an emergency.

Prepare

Having the proper equipment and supplies ready, and in the right quantities when needed, is a critical component of successful emergency planning and response activities.

The 3M™ Demand Planners for Points of Dispensing, Surge Capacity-PPE, and Safety and Security Vulnerability Assessment are planning tools designed to help you make critical decisions about the type and quantity of supplies you think will be needed based on the scenarios you outline.

We're ready to help you with your preparedness, response and recovery needs. Please call 1-877-906-8505 or visit 3M.com/prepare.

Recover

Rebuilding and re-establishing essential services in the wake of structural devastation is a major step in restoring safety and security to your citizens. 3M's line of personal protective equipment is a vital component of protecting those involved in cleanup and relief efforts.

In addition to personal protective equipment, 3M's wide variety of restoration products include:

- Marking and Signage products
- Electrical products
- Sorbents
- Abrasives
- Tapes
- First Aid products
- Window Protection Films
- Cleaning and Disinfecting supplies
- Concrete maintenance products
