

Product Change Notice: 3M™ Twisted Pair Flat Cable, 3782 Series

Issue Number: 719
Date: July 2, 2008

Product Change

In an effort to simplify the supply chain for these cables, 3M U.S. will no longer be moving them through the New Ulm, MN distribution center. We are changing to a floor-to-door process with 3M Japan being the order supply point. Country of origin on these cables is and will remain Japan.

This change does not affect the cable itself; however part numbers and stock numbers are changing and packaging may look slightly different.

Support Materials

Tech sheet TS-0999 has been updated to reflect the new ordering information.

Ordering Information

The products are available now. Please reference the attached list for new part numbers and stock numbers. Please note that there is a new repeat length of 540 mm added to this offering.

Lead times will be improved from 33 days to 28 days. MOQ is 300 ft. Please continue to place orders as normal through the 3M ESD Customer Service Team.

Action Required

Please notify customers of this change as you see fit.
