bondo®

Traffic Products

Great Experience.

Great Products.

The Bondo Corporation has been engineering and manufacturing professional products for the traffic control industry for over 37 years. During this time we have remained committed to understanding our customers needs and then developing products that meet and exceed those needs. Our entire organization is dedicated to this approach, from Sales, Marketing and Customer Service through Research and Development and Manufacturing. We believe that this customer driven approach makes and keeps us the leading supplier of traffic control products.

Great Results.

Part #	Part Description	Size	Case Qty.	Case Wgt.	Cases/ Pallet
ONE PART POLYURETHANE LOOP SEALANT					
560	Bondo® Traffic – Loop Sealant, Black	1 Liter	12	46	24
575	Bondo® Traffic – Loop Sealant, Gray	1 Quart	10	45	36
577	Bondo® Traffic – Loop Sealant, Gray	4.5 Gallons	1	65	24
578	Bondo® Traffic – Loop Sealant, Black	4.5 Gallons	1	65	24
2K POLYESTER LOOP SEALANT					
606	Bondo® Traffic – Flexible Sealant, Brown	1 Gallon	4	49	45
6065	Bondo® Traffic – Flexible Sealant, Brown	4.5 Gallons	1	59	24
9606	Bondo® Traffic – Flexible Sealant, Brown	50 Gallons	1	633	2
6061	Bondo® Traffic – Extra Flexible Sealant, Brown	1 Gallon	4	47	45
6063	Bondo® Traffic – Extra Flexible Sealant, Brown	4.5 Gallons	1	55	24
606V	Bondo® Traffic – Large Cavity Sealant, Brown	1 Gallon	4	49	45
EPOXY SENSOR / LIGHTED CROSSWALK EPOXY					
7084	Bondo® Traffic – Traffic Sensor Epoxy Kit, Gray	1 Gallon	2	27	45
BONDO® TRAFFIC – ACCESSORIES					
609	Bondo® Traffic – Hardener for #6061 & 606V	.74 FL. oz.	12	11	672
610	Bondo® Traffic – Speed Set Accelerator for #6061 & 606V	.50 FL oz.	12	1	288
5	Bondo® Traffic – Hardener for #9606	1 Gallon	1	3	108
7	Bondo® Traffic – Hardener for #6065	12 FL. oz.	2	3	304
7016	Bondo® V-Style Squeegee	N/A	1	1	N/A
7017	Bondo® Traffic – Static Mixer Tip	N/A	12	2	120
7019	Bondo® Traffic – Applicator Tip for #575	N/A	10	2	120
6014	Sealant Cleaner	1 Gallon	4	30	156
6015	Sealant Cleaner	5 Gallons	1	36	36
7025	Bondo® Traffic – Air Gun Dispensor for #575	N/A	1	13	N/A
7030	Bondo® Traffic – Air Gun Dispensor for #560	N/A	1	6	N/A
7035	Bondo® Battery Operated Dispensing Gun for #575	N/A	1	14	N/A
7037	Bondo® Battery Operated Dispensing Gun for #560	N/A	1	14	N/A

One-Part Polyurethane Loop Sealants

Bondo One-Part Polyurethane Loop Sealants provide excellent protection for traffic detector wires under the most extreme physical, chemical or mechanical exposures. This non-shrinking, non-hazardous sealing system was designed to cure in the presence of moisture and is suitable for use on concrete and asphalt. It is also self-leveling which ensures full encapsulation of the traffic detector wires.

#560
ONE LITER SAUSAGE PACK—Black

#575
ONE QUART CARTRIDGE—Gray

#578
4.5 GALLON PAIL—Black

#577
4.5 GALLON PAIL—Gray

Two Component Polyester Loop Sealants

Bondo Flexible Traffic Detector Loop Sealants are a two component polyester compound that is highly durable and remains permanently flexible. This loop sealant can withstand the corrosive effects of road salts, automotive fluids, jet fuel, gasoline and extreme weather conditions. It also features rapid chemical curing, which minimizes the length a lane is closed, and superior adhesion to concrete and asphalt. All polyester loop sealants can be color tinted.

Extra Flexible Loop Sealant

Bondo Extra Flexible Traffic Detector Loop Sealant is a two component polyester compound with double the elongation (flexibility) of conventional two component polyester loop sealants.

Large Cavity Sealant

Specifically designed for larger traffic sensors and junction areas, Bondo Large Cavity Sealant is a 100% non-shrinking polyester that cures quickly.

Lighted Crosswalk/Sensor Epoxy

A tough durable compound for permanently sealing traffic sensors and lighted crosswalks. This non-shrinking, self-leveling, two-component epoxy provides a solid base and superior adhesion to clean concrete, asphalt and metal. It cures in less than one hour and is highly resistant to automotive fluids, jet fuel and extreme weather conditions. Simple 1:1 mixing ratio.

Dispensing Equipment

Pneumatic Dispenser for #575
The rolling air powered dispensing gun is designed to reduce back fatigue while applying our one component, quart cartridge of polyurethane loop sealant. This high quality tool rolls smoothly and accurately across the ground and eliminates the need to bend over or kneel down to apply loop sealant. **#7025**

### Battery Operated Dispensing Gun for #560
No more air compressors or dragging the air hose around the job site. Just charge the battery and pull the trigger. Designed for our one-liter sausage pack of one part polyurethane loop sealant (Part #560). The lightweight gun features a variable speed trigger and includes two rechargeable batteries and a battery charger. **#7037**

Battery Operated Dispensing Gun for #575
This battery operated dispensing gun for our one part polyurethane loop sealant (Part # 575), increases your production and flexibility on the job site. The lightweight gun features a variable speed trigger and includes two rechargeable batteries and a battery charger. **#7035**

Pneumatic Dispenser for # 560
This air powered gun for our one-liter sausage pack makes dispensing loop sealant quick, easy, and virtually waste free. The pneumatic tool only requires air pressure from 50-80 psi, depending on the temperature and the desired flow rate of the loop sealant. **#7030**

V-Style Crack Squeegee
The Bondo Traffic V-Style Squeegee is the tool of choice for channeling loop sealant into loop detector cuts. Reversible for push or pull channeling. Total Length: 61 inches. **#7016**

Static Mixing Tip
Designed for use with two component polyester loop sealant products to ensure proper mixing. **#7017**

Applicator Tip
Designed for use with the #575 quart cartridge of one part polyurethane loop sealant. **#7019**

Hardeners

Hardener For Polyester Loop Sealant
Bondo sealant hardener comes in an easy to use pre-measured tube. For use with products 6061 and 606V. **#609 (.74 fluid ounces)**

Bondo Speed Set Accelerator
Bondo Speed Set Accelerator is used to accelerate the rate of cure for Bondo polyester loop sealants at temperatures below 40º F. This product makes it possible to use Bondo polyester loop sealants year-round in all temperatures. For use with products 606, 606V and 6061. **#610 (.50 fluid ounces)**

Hardener For Polyester Loop Sealant (#6065)
Pre-measured hardener for 4.5 gallon pail of loop sealant. **#7**

Hardener For Polyester Loop Sealant (#9606)
Pre-measured hardener for 50-gallon drum of loop sealant. **#5**

Cleaners
Our acetone is great for cleaning sealant dispensing machines and equipment. Available in one and five gallon pails.
#6014 Gallon
#6015 Five-Gallon Pail
