3M™ Engine and Tire Dressing is a water based silicone emulsion designed to produce a uniform clean appearance on engines, and a deep black, medium gloss look on tires.

Directions for Use:

-Engines-

1. Add one part concentrate to one part water.
2. Apply a uniform coating directly onto the engine and engine compartment and allow to dry.

-Tires-

1. Spray a thin, uniform coating of dressing concentrate directly onto the tires and allow to dry.
2. Remove overspray from the wheels, hubcaps or painted surfaces using a clean, soft, dry terry cloth towel.

DO NOT USE on motorcycles, bicycles, or other two wheeled vehicles' wheels or seats. Avoid spraying onto brake rotors, brake drums, or brake pedals.

PROTECT FROM FREEZING
