

The shelf life period for all 3M Commercial Solutions Division chemical products starts at the time the product is manufactured. Manufacturing dates can be found on the side of each bottle/bag. The following charts define the shelf life periods for 3M Commercial Solutions Division chemical products. The following is dependent on products being stored above 40°F (5°C) and below 100°F (37°C) or as stated on the package, and kept in closed containers such as spray bottle or flip top bottles. Products dispensed into an open container such as mop buckets or hand pails should be mixed daily or more often as soil load dictates.

## IMPORTANT NOTE

Refer to products' safety data sheets for specific physical properties, health hazard, first aid, and precautionary information.

## Shelf Life Information

### 3M™ and Scotchgard™ Hard Floor Products

## Health and Safety

 CAUTION

When handling any chemical products, read the manufacturers' container labels and the Safety Data Sheets (SDS) or Substances of Very High Concern Information (SVHC) for important health, safety, and environmental information. To obtain SDS (for the United States) for 3M products go to [3M.com/SDS](https://www.3m.com/SDS). To obtain SVHC (for Europe) for 3M products go to [3m.com/SVHC](https://www.3m.com/SVHC).

When using any equipment, always follow the manufacturer's instructions for safe operation.

## Warranty Information

## Technical Information

Technical information, guidance, and other statements provided by 3M are based upon records, tests, or experience that 3M believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with knowledge and technical skills sufficient to assess and apply their own informed judgment to the information. No license to any intellectual property rights is granted or implied with respect to this technical information.

## Product Selection and Use

Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. Customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment, reviewing all applicable regulations and standards, and reviewing the product label and use instructions. Failure to properly evaluate, select, and use a 3M product in accordance with instructions or to meet all applicable safety regulations may result in injury, sickness, death, and/or harm to property.

## Warranty, Limited Remedy, and Disclaimer

Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

## Limitation of Liability

Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
