Reference Information

Organization: Manitoba Public Insurance

Document

Type: Time Study and Crash Evaluations
Name: Adhesive Bonding Roof Panels
Number: N/A
Issued: June 1998

Description

Vehicles: N/A

Purpose: MPI's Insurance's Training & Research centre was approached by 3M to evaluate their panel bonding adhesive as an alternative method to plug welding cosmetic panels. MPI agreed on testing the product and addressing the following concerns:

- Identify the time savings that result from using structural adhesives in lieu of plug welds when replacing roof panels.
- Compare the fit and appearance of adhesive-joined panels to that of the factory panel.
- Evaluate the crash performance of adhesive bonded roof panels.

Note: 3M provides this information for *REFERENCE ONLY*.
ALWAYS refer to the original document or the OEM-provided model-specific collision damage repair manuals for complete instructions.

3M Products:
