3M Food Safety

Easier *Salmonella* Detection,  
Faster Confirmation,  
It's About Time.

U.S. customer only

## Starter Package

# 3M™ Petrifilm™ *Salmonella* Express System

Introducing the first qualitative 3M™ Petrifilm™ Plate for *Salmonella* detection in food and food process environmental samples.

3M Petrifilm *Salmonella* Express System offers:

- Presumptive Results in 40 hours  
2X faster than most traditional methods
- In-house biochemical confirmation in 4 hours
- Greater consistency
- Longer shelf life than agar plates
- 85% less space than agar plates
- No special equipment needed

This introductory offer makes it easy for you to get started with a faster, simpler, all-in-one test method for *Salmonella* testing.

We use the 3M™ Petrifilm™ *Salmonella* Express System for fishmeal product testing. The multi-step system is seamless for my lab technicians to integrate with their daily routine. The feature we most appreciate is the visibility to *Salmonella* colony growth on the 3M Petrifilm *Salmonella* Express Plate. Colony visibility transforms the obscure world of microbiology into a tangible reality and inspires our operators in raising the bar on feed-safety practices.

--- Michele, Corporate Quality Assurance Manager,  
UniSea, Inc. Alaska, USA

# Special Offer

## Starter Package

**Only \$375** for 3M™ Petrifilm™ *Salmonella* Express System TOTAL PACKAGE\*

### System Components:

**Only \$150.00**

50 plates/box (6536)

#### 3M™ Petrifilm™ *Salmonella* Express Plate

Sample-ready, chromogenic culture medium that is selective and differential for *Salmonella* and provides a presumptive result.

**Only \$83.00**

5 disks/box (6538)

#### 3M™ Petrifilm™ *Salmonella* Express Confirmation Disk

Facilitates biochemical detection of *Salmonella* organisms.

**Only \$2.00**

2 spreaders/box (6425)

#### 3M™ Petrifilm™ Flat Spreader

Use to gently and evenly distribute fluid over the entire 3M Petrifilm *Salmonella* Express Plate growth area.

**Only \$45.00**

500g/bottle (SEB500)

#### 3M™ *Salmonella* Enrichment Base

Unique medium for the recovery and growth of *Salmonella* species.

**Only \$47.00**

1g/vial (SESUP001)

#### 3M™ *Salmonella* Enrichment Supplement

Unique medium for the recovery and growth of *Salmonella* species.

(high microbial background samples only)

(high microbial background samples only)

**Only \$48.00**

500g/bottle (BP0288500)

#### 3M™ Rapport-Vassiliadis R10 Supplement

Unique medium for the recovery and growth of *Salmonella* species.

#### \*Promotion Details:

- Starter Package is limited to new customers of the 3M™ Petrifilm™ *Salmonella* Express System, first purchase only.
- Use **Promotional Code "S1"** when placing your order with 3M RV-R10: \$375
- Use **Promotional Code "S2"** when placing your order withOUT 3M RV-R10: \$327
- First order must contain all 3M™ Petrifilm™ *Salmonella* Express System products listed above
