# 3M™ Plate Builder

## Features:

- Secure username and password policies

- Configuration options that grow with your business

- Manage and add plate types

- Quickly view production and shipping reports

- Process either manual or electronic license plate orders

- Access Plate Builder from any network connected PC with Internet Explorer®

- Easy to use navigation

- Simple to use yet powerful search capability

- Role based security

## Easy to Use Software for Your License Plate Production

**Manage, streamline and optimize your license plate production when you integrate 3M™ Plate Builder Software with the 3M™ Precision Plate System or the 3M™ Digital License Plate Printer. The Plate Builder Software allows you to easily automate order entry, track production information and produce detailed reports.**

## Application Architecture

- 3M™ Plate Builder is browser based and runs entirely within your internet browser

  ▸ No need to install a Windows® application on each PC

  ▸ Limits dependency on the Windows® operating system version

- User specific logins which support role based security

- User configurable lookup tables

## Optimize Order Entry

- Accepts electronic and manual license plate orders

- User defined electronic file layout mapping tool

- Organize orders based on materials, color set and physical size for maximum efficiency

- Automatically flags duplicate orders and license plates to prevent unnecessary production

## Efficiently Manage Production

- Choose between full or partial runs for efficiency or on-demand printing

- Configure and clone plate types, define valid characters for each plate type

- Configure additional dynamic data fields such as County Name, County Number, Expiration Month and Expiration Year

- Manage plate remakes

- Print summary and detailed production and management reports to help optimize your operation

## Streamline Shipment & Tracking

- Assigns plates to packages

- Pre-load the software with customer defined shipping location data

- Allows orders to be shipped to a warehouse, branch office or motorist

- Print labels for plate sets, packages and shipping addresses

- Utilize the powerful tool, InfoSearch, to check the current status of plates or orders

**Automate, optimize and track your plates from order to shipment with 3M™ Plate Builder. This software is available to support the new 3M™ Precision Plate System and the current 3M™ Digital License Plate Printer.**
