# Spray Lithium Lubricant

## Description

3M™ Spray Lithium Lubricant is a heavy-bodied, lithium grease based, aerosol lubricant. It provides good performance under high friction loads, rubbing, and wiping action. It is excellent for general applications on all metal moving parts.

## Features, Advantages, Benefits

### Features
- High solids lithium grease
- Non-sag
- Long lasting
- Excellent lubrication
- Handy aerosol
- Protects against rust and corrosion
- Resists heat and moisture

## Product Uses
Performance Properties

**Handling and Application Information**

**Directions for Use**

1. Shake can well before using.
2. Turn spray valve so that tip points to dot on can rim.
3. Spray directly on parts to be lubricated. For hard-to-reach areas or small surfaces, use the extension tube that fits into the spray tip.
4. After use, turn can upside down and press tip until spray is free of material.

**Applications**

Lubrication of:
- Door hinges, trunk and hood hinges
- Cables and linkage
- Plastic to plastic sliding parts
- Metal to metal sliding parts

**Storage and Handling**

Store at room temperature. Rotate stock on a "first-in, first-out" basis. When stored at the recommended conditions in original, unopened containers, this product has a shelf life of 12 months.

**Precautionary Information**

Refer to Product Label and Material Safety Data Sheet for Health and Safety Information before using this product.

**Important Notice to Purchaser**

The statements and technical information contained in this technical data sheet are based on tests and data which 3M believes to be reliable, but the accuracy or completeness of such statements and technical information is not guaranteed. **3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application.

* If 'Directions for Use' reference P.N.'s 8984, 8986, or 8987, please read below.

Federal and local air quality regulations may regulate or prohibit the use of surface preparation and cleanup solvents based on VOC content. Consult your local and Federal air quality regulations for information. When using solvents, use in a well ventilated area. Extinguish all sources of ignition in the work area and observe precautionary measures for handling these materials. Refer to product label and MSDS for P.N. 8984, 8986, or 8987 for detailed precautionary information.

**LIMITATION OF REMEDIES AND LIABILITY:** If the 3M product is proved to be defective, **THE EXCLUSIVE REMEDY, AT 3M’S OPTION, SHALL BE TO REFUND THE PURCHASE OF OR TO REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT.**

3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential,
regardless of the legal theory asserted, including negligence, warranty, or strict liability.
