Now you can enhance your existing 3M™ Breathe Easy™ assemblies when responding to biological hazards. Our biological conversion kit gives you a comfortable option and offers flexibility when responding to a variety of emergency response applications, including patient triage, decontamination and infection control. Our biological conversion kit allows you to:

- Enhance your existing 3M Breathe Easy assemblies
- Maximize your initial investment at a low conversion cost
- Stay with a response system your employees are trained for and familiar with
- No additional fit or user testing required
- Your monthly battery maintenance program remains the same—no additional batteries required
