3M™ Industrial Grade Nepheline Syenite

**Reliable supply to
keep production
going.**

You can't afford production slowdowns. You need reliable raw materials suppliers. 3M Industrial Grade Nepheline Syenite is produced in Little Rock, Arkansas, to provide ceramic tile manufacturers and other customers with a cost-effective, reliable supply. Our proximity, logistics support, consistent geology and technical expertise have enabled us to become a key supplier to the U.S. ceramics industry for decades.

3M Industrial Grade Nepheline Syenite is available in two sizes to meet your application needs. 3M Industrial Grade Nepheline Syenite 700 is processed to a top size of approximately 700 microns, and 3M Industrial Grade Nepheline Syenite 200 is processed to a top size of approximately 200 microns.

Our Little Rock facility offers access to flexible and convenient transportation options including barge, rail and truck to ensure efficient handling of various size orders.

Keep costs low and realize a competitive advantage with our central location and proven performance. 3M began as a mining company and we are committed to helping our customers maximize efficiency, minimize costs and enhance sustainability.

Global Innovation

At 3M, we apply science in collaborative ways to improve products and processes around the world, and we have been inventing for more than 100 years. We apply creativity and insight to solve problems, help our customers operate more efficiently and improve productivity.

No Warranty, Limited Remedy, and Limitation of Liability: 3M Industrial Grade Nepheline Syenite (the "Product") is a naturally occurring mineral that is processed and stored outside; the moisture level, chemical composition and size will vary. 3M provides the Product "AS IS, WHERE IS," with any and all faults and with no warranty whatsoever. 3M MAKES NO WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. Many factors that are uniquely within user's knowledge and control can affect the use and performance of the Product in a particular application. The user is solely responsible for inspecting and evaluating the Product and determining whether it is fit for a particular purpose and suitable for the user's process and application. Except where prohibited by law, 3M will not be liable for any loss or damage arising from the performance, use or inability to use the Product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted.
