Applied to elevating  
stainless steel cleaning.**

# 3M™ Stainless Steel Cleaner and Protector with Scotchgard™ Protection is the last stainless steel cleaner you'll ever need.

## A clear solution that is uniquely green.

Water-based and oil-free means 3M™ Stainless Steel Cleaner and Protector reduces petroleum content by over 90% vs leading polishes, and it comes in recyclable packaging. 3M™ Stainless Steel Cleaner and Protector is a USDA Certified Biobased product.

## Turns cleaning people into cosmetic surgeons.

With 3M™ Stainless Steel Cleaner and Protector, you can do large surfaces or spot cleaning, and leave everything looking good, with a streak-free shine. No buffing required.

*Oil and water don't mix in this solution. It's oil-free.*

## A big-time time-saver.

When you use 3M™ Stainless Steel Cleaner and Protector, you will be able to spot clean your stainless steel which can save 80% of your time compared to leading stainless steel polishes.

Chances are, you've tried a few stainless steel cleaners in your day. There are many on the market. But if you're like a lot of people, you've been looking for something better.

Look no further. 3M™ Stainless Steel Cleaner and Protector, a product of 3M science, is an oil-free formula that cleans stainless steel the way you've always wanted to. Quickly. Effectively. Easily.

Prepare to take your stainless steel cleaning to the next level.

### Solves a problem rather than adding to it.

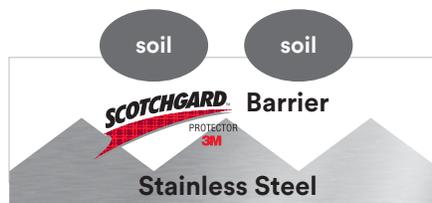

Other cleaners can leave a layer of soil and oily residue in the natural grooves of stainless steel.

Oil attracts dust, dirt and lint. It can be tough to remove and, over time, darkens and dulls the patina of stainless steel.

3M™ Stainless Steel Cleaner and Protector, on the other hand, leaves a transparent barrier of Scotchgard™ protection between your surface and soil and oily residue.

With repeated use, this barrier can help protect against

surface corrosion, and prevent soils and oily residue from sticking to stainless as compared to leading polishes.

*With Scotchgard™ Protection*

*Without Protection*

### Expect less trouble from the biggest troublemakers.

Scotchgard™ Protection helps you remove more soils when cleaning, versus leading polishes:

- 3 times more permanent marker
- 5 times more bleach
- 2 times more mustard
- 2 times more toothpaste
- 85% less product consumption for spot cleaning than leading polishes

## A safer working environment.

- No oily overspray or oily spills
- Spills are less slippery (10x higher wet static coefficient of friction vs leading polishes)
- NSF A7 Certified for non-food contact surfaces

- NFPA/HMIS Rating  
Health (0-rating)  
Flammability (0-rating)  
Physical Hazard/Instability (0-rating)

## Keep all of your stainless spotless:

- Elevators
- Bathrooms
- Architectural surfaces
- Fixtures
- Escalators

## Degrease first.

For best results, we recommend using a heavy duty multi-surface cleaner or degreaser before applying 3M™ Stainless Steel Cleaner and Protector for the first time.
