## 3M™ Stainless Steel Cleaner and Protector Surface Preparation Suggestions

Using 3M™ Stainless Steel Cleaner and Protector is a smart way to keep your stainless steel surfaces looking their best. Surface preparation is critical. Application is easy.

### Materials needed to prepare surface:

**O-Cel-O™ Sponge**

**Degreasing cleaner**

3M™ Heavy Duty Multi-Surface Cleaner Concentrate 2L/A  
3M™ Food Service Degreaser Concentrate 7H/L/A  
3M™ Industrial Degreaser Concentrate 26H/L/A

**Squeegee**

**Paper towels**

**3M™ Stainless Steel Cleaner and Protector**

## Preparing the surface

1 | Scrub the area with degreaser

2 | Squeegee off oil and grime

3 | Touch up with degreaser (as needed)

### For best results:

- All previously used polish must be completely removed for the layer of Scotchgard Protection to build on the stainless steel surface
- Use clean paper towels to avoid streaking
- Remove degreaser streaks with water and a clean towel
- Clean around keyholes, button hole or joints with degreaser as needed

Watch surface prep video

## Protecting the surface

1 | Apply 3M™ Stainless Steel Cleaner and Protector

2 | Wipe dry with a clean paper towel

### For best results:

- Avoid excessive product usage, which can lead to streaking
- Use a squeegee to remove excess protector as needed
- Optionally, use a clean and dry microfiber cloth

**Use 3M™ Stainless Steel Cleaner and Protector exclusively for future cleaning!**
