

3M Scotch-Brite™

630 Aqua Dairy Scrubbing sponge /Scourer

Product Bulletin

Issued Aug 2000
New
Author: John Mitchell

Description :

The product is a dual function general purpose cleaning tool which is a combination of a regular grade general purpose open textured non-woven web containing abrasive material, laminated with an adhesive, onto a Urathane sponge.

Product Advantages :

- Excellent scouring performance, can remove baked food.
- Easy to handle
- Conformable
- Doesn't keep or release harmful ingredients
- Very good lasting.
- Can work in hot water and usual cleaning chemicals (diluted bleach only)
- High absorption power.

Where and When to Use :

Sponging and scouring walls, woodworks, tables, countertops, pots and pans equipment in the kitchen.

The Scotch-Brite™ # 630 scouring sponge is a medium aggressive product and should be used on surfaces not damaged by scratching.

Maintenance :

- Rinse the product after each use under tap water.
- Remove deep embedded soil from the scouring part by brushing it with a nylon brush.
- Rinse under clear water prior first use.
