

The 3M difference.

There are thousands of window film dealers in the country, but only a select few have been chosen to be part of the 3M network. 3M™ Authorized Dealer Installers are available to help you select the right window film for your vehicle. Whether you want to reduce heat and glare or increase privacy and security, there's a 3M™ Window Film to meet your needs.

Up to SPF
1,000

Invented, innovated and improved.

Improving comfort, protecting vehicle interiors and blocking UV rays are hallmarks of 3M™ Automotive Window Films. 3M was issued the first sun control window film patent in 1966, and our innovative window film products have helped provide protection from the sun's harmful rays for 50 years. Put the innovation of 3M to work for you.

3M™ Automotive Window Film
Black Chrome Series

The ultimate in privacy.

Give your car the cool factor.

3M™ Automotive Window Film
Black Chrome Series offers the
ultimate in privacy while providing
excellent heat rejection.

Black Chrome Series

3M™ Automotive Window Film Black Chrome Series

Stay cool

The Black Chrome Series incorporates an all-metal technology with a classic reflective appearance to keep you cool and protected from the sun's heat and ultraviolet (UV) rays. Rejection of up to 72% of the total solar energy coming through your windows gives you the ultimate in comfort.

Superior UV protection

Blocking up to 99% of UV light, the Black Chrome Series provides a total Sun Protection Factor (SPF) of up to 1000. This helps provide vehicle occupants with significant protection from harmful UV rays.

Increase privacy

Increase privacy for you and your valuables with the Black Chrome Series, available in tint levels that can block up to 95% of visible light into your vehicle.

Reduce glare

The Black Chrome Series significantly reduces the glare from blinding sunlight, allowing you to see better and concentrate more on driving.

Stay true

The all-metal film construction of the Black Chrome Series means these films will retain their integrity and never fade to purple — guaranteed.

Limited lifetime warranty

The Black Chrome Series is backed by a limited lifetime warranty, one of the most comprehensive warranties you can get. Sold and installed by professional 3M™ Authorized Dealer Installers, our films are durable, designed to last and virtually maintenance free.

Terms to know

- ▶ **Total Solar Energy Rejected (TSER)**
The percentage of total solar energy rejected by filmed glass. The higher this value, the less solar heat is transmitted.
- ▶ **Visible Light Transmitted**
The percentage of visible light that passes directly through filmed glass: the higher the number, the lighter the film.
- ▶ **Visible Light Reflection**
The percentage of visible light reflected back from the glass.
- ▶ **UV Rejection**
The percentage of harmful ultraviolet light that is rejected by filmed glass. Ultraviolet light contributes to sunburn and other harmful skin conditions and to the fading and deterioration of fabrics and leather.
- ▶ **Glare Reduction**
The percentage by which visible light is reduced by the addition of film.

Choose your level of protection

The Black Chrome Series is available in a variety of tint levels to meet your needs.

		BC 10	BC 20	BC 35	BC 40
TSER	Total Solar Energy Rejected	72%	68%	53%	47%
	Visible Light Reflection	22%	20%	13%	9%
	UV Rejection	99%	99%	99%	99%
	Glare Reduction	88%	81%	60%	53%
