

School Bus Safety Markings

Visibility & Safety
for Life on the Road

3M, the innovation leader in traffic safety for more than 65 years, now combines comprehensive services with high-performance materials to provide ***safety and visibility for the life of the road.*** From installation, maintenance, asset management and flexible funding programs to state-of-the-art reflective sign sheeting and all-weather pavement markings, the 3M difference is clearly visible.

School Bus Safety Markings

- Make school transportation safer by enhancing school bus visibility, especially during early morning and evening hours

National Highway Transportation Safety Administration

- 1995 Regulation requires reflective markings on all emergency exits
 - *Windows, hatches, doors*
 - *Markings may be yellow, white, or red*
- Stop sign and bracket must also be marked with reflective
