

3M Visiting Wizards

3M Visiting Wizards encourage young people to become interested in science and technology by providing interesting science demonstrations and hands-on experiments on a variety of topics. A typical presentation is for up to 30 students in a self-contained classroom. The teacher must remain in the classroom with the students during the presentation. Requests are filled based on volunteer availability.

Grade level:

Grades 1 - 6

Geographical restrictions:

3M Visiting Wizards travel to sites within a 20-mile radius of 3M in Maplewood, Minnesota.

3M Visiting Wizards encourage young people to become interested in science and technology and aim to raise interest in STEM. In our video library, 3M Wizards showcase interesting and fun science demonstrations and hands-on experiments on a variety of topics.

These simple experiments can help youth understand how 3M science can impact everyday life. Teachers may show the taped experiments in their classroom to spur discussion and learning.
