3M™ Cleaning & Workplace Safety Supplies

Full Line Catalogue

ANZ
Discover a world of affordable, smart cleaning equipment and supplies, backed by practical advice and technical know-how, to enhance your building and transform your business.

3M provides facility managers and contract cleaners with innovative, sustainable high-value solutions to help protect a building’s life and enhance the performance and productivity of employees.

3M facilities care and cleaning solutions enhance protection, performance and productivity for the life of a building. Whether you need cleaning supplies or janitorial supplies, facility maintenance materials, or specialty items from floor mats to safety tapes and treads, 3M products deliver. We also provide industry-leading Scotch-Brite™ products for food services cleaning needs, from griddle cleaning to appliance cleaning, as well as food quality and food safety products.
**Facility & Operations Managers**

To help meet the important challenges faced by facilities managers, 3M develops innovative cleaning, and floor protection products that deliver measurable commercial benefits and sustainability advantages.

3M is committed to developing cleaning equipment and supplies that help lower your total maintenance costs. For example, floor care is not measured merely by the expense of cleaning and polishing floor pads, it also includes the cost and difficulty of effort, a measure of floor performance over time and the durability of products used.

Our wide range of cleaning equipment and supplies are designed to:

- Safely clean and protect your building, especially in visible high traffic areas
- Deliver quality results
- Provide superior cleaning performance
- Be truly cost effective, by lowering your total costs

**Building Service Contractors**

The key to running a successful cleaning business is the ability to provide outstanding services in a highly competitive environment. It requires hardworking, reliable and well-trained cleaners, backed by experienced cleaning supervisors—and the support of partners who understand what it takes to maintain a first class reputation.

3M has supported successful contract cleaning firms with innovative janitorial cleaning supplies and maintenance products and entrance and safety matting. 3M continuously innovates to create green cleaning products—making life easier for contract cleaners and helping you manage costs.
Health Care Environmental Services Professionals
For more than 50 years, 3M has offered our health care and education industry partners innovative facility cleaning and facility maintenance and safety solutions to help protect patients, students and staff while reducing overall costs and providing the highest return on investment. From floor safety products to disinfectant cleaners, 3M can help reduce illnesses in schools and healthcare-associated Infections (HAIs) in health care environments.

3M’s goal is to provide healthy and clean environments. This is achieved by providing quality facility cleaning, maintenance and safety products, a thorough training curriculum, personnel documentation for regulatory compliance, and quality assurance programs. Specific products and programs have been designed to help educational facility and maintenance managers decrease labour costs and effectively train employees. 3M helps validate the efficacy and performance of your cleaning.

Food Service Professionals
The Scotch-Brite™ brand has been recognised as a leading restaurant cleaning supplies brand in the food service industry. The quality, durability and efficiency of Scotch-Brite™ cleaning products is why they have become a top choice for food services professionals around the world. Through innovation and technology, 3M continues to develop efficient and cost-effective products for your commercial kitchen cleaning needs.

Solutions for Architects
Being an Architect you just can’t afford to specify materials in your designs that might let you down. It’s really not worth compromising on product performance and reliability when you could be putting your reputation at risk. 3M understands this and the demands your clients place on you – the need for performance, durability and long-term cost effectiveness. For this reason most architects worldwide feel confident in specifying 3M products and solutions, and work with us to help develop new and innovative solutions for the next generation of sustainable and more efficient buildings.

Hand Pads & Scourers

Scotch-Brite™ Commercial Hand Pads/Scourers have a uniform mineral/abrasive coating on fibres throughout the pad. As the pads are used, new mineral is continually exposed throughout the life of the pad ensuring optimum cleaning performance and long life.

The quality, durability and efficiency of Scotch-Brite™ cleaning products is why they have become a top choice for food services professionals around the world. 3M offers the right tool for each cleaning job - from light duty to extra heavy. Most 3M hand pads are HACCP approved*

*please contact 3M for HACCP endorsement certification details for specific products you are reviewing/purchasing
Why choose 3M?

• Quality
  ► Efficient and cost-effective products

• Durability
  ► Long lasting usage

• Performance
  ► Effective and consistent performance throughout the life of the pad

• Saves Money
  ► Durable, long lasting

• Saves Labour
  ► Scourers faster, gets the job done faster

• Breadth of Product Line
  ► Variety of pads, right product for the right application

Scotch-Brite™ Green Scouring Pad 86 / 75 - Heavy Duty

- The heavy duty cleaning power of this scourer makes for light work when cleaning grease, grime and baked-on foods. Open weave construction for easy cleaning. Open construction pad with tough fibers and abrasives make fast work of heavy duty cleaning jobs. Use in the kitchen to replace scrapers, steel wool and metal sponges. Typical applications include heavily baked-on food and food processing equipment. Mineral: the product contains abrasive particles that are effective in scrubbing operation.

Hand Pads & Scourers

Scotch-Brite™ Power Pad 2000 - Heavy Duty
Scours 2-4 times faster than conventional commercial scouring pads, and is 6-10 times less abrasive than other medium/heavy-duty commercial scouring products to reduce scratching.*

↑ Fiber: durable synthetic fibers that are crimped and heat set to create a strong web
↑ Scouring Particles: unique soil-removing particles for effective scouring, cleaning, and scrubbing. Particles are evenly distributed throughout the pad to ensure effective, consistent scouring, and lasting performance throughout the life of the pad
↑ Resin: high quality bonding resin system designed to provide resistance to degradation from exposure to hot water, detergents and normal cleaning liquids

Scotch-Brite™ Dual Purpose Scour Pad 96HEX
Features a yellow raised power dot side that aggressively scours away tough messes with less elbow grease. The smooth side scours away fine particles and grease, leaving a clean and shiny surface.
Use for general purpose cleaning, including:
↑ Pots and pans
↑ Cooking appliances and utensils
↑ Kitchen and maintenance equipment
↑ Stainless steel

Hand Pads & Scourers

Scotch-Brite™ Purple Pad 2020 - Heavy Duty

Cleans your dirtiest pots and pans twice as fast as conventional heavy duty scouring with less scratching.* Food debris rinses out of the pad easily. Unique web construction stands up to your toughest jobs. Scratches less than other heavy duty pads.

▶ Designed to provide heavy-duty scouring and scrubbing capability with significantly lower scratching potential
▶ Contains durable synthetic fibers that are manufactured to develop a strong, open pad surface
▶ Mineral particles are distributed evenly on the surface and through the pad to provide consistent scouring over the life of the pad
▶ Constructed with resin that resists degradation from exposure to hot water, detergents and most cleaning liquids
▶ A good replacement for most applications where steel wool and stainless steel scrubbers are currently used

Hand Pads & Scourers

Scotch-Brite™ Easy Erasing Pad 4004
Soft, flexible pad cleans many surfaces. Innovative white polymeric foam erases hard-to-clean stains, marks and scuffs. Unique blue urethane layer provides durability and keeps hands away from messes. Easy-to-use! Simply wet pad and squeeze out excess water. Use white side of pad to erase marks. Use blue side to wipe away residue.

- Trademarked bow-tie shape
- Soft, flexible pad cleans many surfaces without using additional chemicals - just use water
- Blue urethane foam sponge holds water to keep pad moist, can be used to wipe after use, and keeps the pad intact over its useful life
- Pad will not scratch glass, ceramic tile, fiberglass, porcelain, Formica®, metal, Corian®, marble, stainless steel, plastic, vinyl, and most wall coatings
- Optimal performance of product is achieved when used with water alone. Detergents and sanitizing cleaners are not recommended for use with this product

*Only available in NZ

Scotch-Brite™ Power Sponge 3000
Two cleaning tools in one – a Scotch-Brite™ Power Pad combined with a sponge. 6-10 times less abrasive than other medium/heavy-duty commercial scouring products to reduce scratching. Antimicrobial protection is locked-in to resist odours in the sponge.

- Unique bow-tie shape for ease of handling
- The scouring side of the product scours 2-4 times faster, and is 6-10 times less abrasive than other conventional commercial scouring pads
- Fiber: Durable synthetic fibers that are crimped and heat set to create strong web
- Scouring Particles: Unique soil-removing particles for effective scouring, cleaning, and scrubbing. Particles are evenly distributed throughout the scouring pad to ensure effective, consistent scouring, and lasting performance throughout the life of the pad
- Resin: High quality bonding resin system designed to provide resistance to degradation from exposure to hot water, detergents and normal cleaning liquids
- Sponge side: Features antimicrobial technology that resists the growth of odor-causing bacteria within the sponge

Scotch-Brite™ High Performance Cloth
The High Performance cloth is an effective way to clean and polish almost any surface without the use of chemicals. The cloth itself is chemical free and picks up dirt, oil and grease without streaking or smearing. The cloth can be reused by throwing it in the washing machine. The cloth can be used on virtually any surface. Try it on plastic, glass, mirrors, brass, stainless steel, chrome, metal, marble, painted metals, ceramic, fibreglass, electronic equipment, computer monitors. Great for removing lipstick from cups and glasses.

Griddle & Appliance Cleaning

3M offers a wide portfolio of safe and effective cleaning solutions for griddles, fryers and beyond. These solutions range from the traditional griddle brick cleaning system to our advanced Quick Clean Griddle cleaning system. 3M offers a range of scouring pads to suite your cleaning needs.
Scotch-Brite™ Fryer and Kitchen Cleaning Tool will be your versatile, go-to solution to clean a wide range of commercial kitchen surfaces.

Grey heavy duty pad: heat resistant up to 176°C. Ideal for cleaning open vat style fryers and to remove soil build up on flat surfaces. Green medium duty pad: with polishing abrasive, heat resistant up to 176°C. Thin web suited to cleaning hard to reach areas. Use to remove grease and food soil between coils and on flat surfaces. Blue low scratch cleaning pad: low scratch pad that is heat resistant up to 176°C. Use to remove grease and food soil between coils and on flat surfaces.

► Designed to reach and clean tight spaces, gaps and hard to reach areas of fryers.
► Adjustable to three different positions to provide leverage for cleaning various surfaces and hard to reach areas in fryers.
► Ideal for cleaning most fryers and other flat surfaces.
► Heat resistant, durable and long lasting.
► Extended position for longer reach - keeps your hands away from potential hot spots whilst delivering the leverage you need
► High quality bonding resin system designed to provide resistance to degradation from exposure to hot water, detergents, and normal cleaning liquids.

Scotch-Brite™ Cool Griddle Cleaning Kit 461

A great solution for quick and effective cleaning of cooled down, flat griddles - kit includes a pad holder, griddle screen and a polishing pad.

► Griddle cleaning kit for quick and effective cleaning of cooled down, flat griddles
► Effectively removes carbonised grease and food debris, and polishes the surface to make food stick less in the future.

Scotch-Brite™ Scotchbrick™
Griddle Scrubber 9537
This easy-to-use, one-piece griddle scrubber is for flat griddles at any operating temperature. The built-in, heat-resistant handle helps protect hands from burns, grease and grime.
- Abrasive mineral particles evenly distributed throughout the pad to ensure effective, consistent, and long lasting performance throughout the life of the pad
- A combination of pad and handle to function as a tool to help keep hands away from hot and dirty surfaces
- Aggressive, heavy duty and open pad construction to provide fast cleaning and multiple uses, resist clogging, and rinse clean easily

Scotch-Brite™ Griddle Screen 200
Designed for heavy duty cleaning and removal of carbonized grease and food buildup on flat top griddles.
- High quality synthetic fabric backing to provide long lasting usage
- Abrasive minerals selected to provide remarkable scouring for the griddle cleaning
- Aggressive, heavy duty and open screen construction to provide fast cleaning and multiple uses, resist clogging and rinse clean easily
- Heat resistant screen to allow for cleaning griddle at operating temperature throughout the day

Scotch-Brite™ Quick Clean
Griddle Cleaning System Starter Kit 710, 1/case

A complete system for cleaning commercial griddles. This system is faster, safer and easier than traditional griddle cleaning products.

- Formulated with ingredients that are considered “Generally Recognized as Safe” (GRAS) in food by the U.S. FDA
- Green Seal™ Certified (avoids ingredients that are toxic or harmful to humans and the environment and efficiently uses packaging material)
- No caustic soda
- No strong chemical odour
- No water rinse required after use
- 3 simple steps to clean the griddle in just 3 to 5 minutes
- Helps increase operational efficiency by reducing the time it takes to clean the griddle
- Control product usage with pre-measured portions
- Durable construction of the Scotch-Brite™ Quick Clean Heavy Duty Griddle Pad 746 allows multiple uses
- HACCP certified product
- Does not leave behind residue

Scotch-Brite™ Quick Clean Griddle Liquid 701

A powerful griddle cleaning liquid that is Green Seal™ Certified and safe for use on food contact surfaces. Loosens and lifts carbonized grease and food soil upon contact on a hot griddle for easy removal. No strong chemical odours. Formulation does not contain caustic soda found in other griddle cleaning chemicals.

- Effectively removes baked-on food and cooking oil from griddles
- Green Seal™ Certified (avoids ingredients that are toxic or harmful to humans and the environment and efficiently uses packaging material)
- One-step cleaning
- Designed for use on medium-hot griddles (150°C-180°C) - saves cool-down time
- HACCP certified product

3M Drive-Through Headset and Intercom Systems

Quick-service restaurants can depend on the proven reliability, digital clarity and stellar support of 3M™ Wireless Communication Systems.

Drive-Through is the heart of your business and improving communication is key to growing your business. Handling orders with speed and accuracy is crucial to ensuring customer satisfaction and repeat business. The quick-service restaurant (QSR) business is far too demanding to settle for anything less.
3M Drive-Through Headset and Intercom Systems

The 3M™ Drive Through Headset, G5 is our fifth generation, wireless headset. The first headset on the market featuring in store reparability and Smart technology. Combined with its lightweight and comfortable design, industry known sound clarity, and the 3M™ Basestation Package makes the 3M™ Drive Through system, Clearly the Sound Decision.

- Sound clarity with mic array technology
- Capacitive touch buttons
- Indicator lights on mic boom
- Globally accepted icons
- Identification Tags
- Haptics Technology
- Accelerometer Sleep/Hybernate
- In-store serviceability
- Integrated headset storage and battery charging

*3M Headsets only available via Recips & Summit Australia.
Surface Cleaning Chemicals

Cleaning power where and when you need it. For years, 3M has been an industry leader in providing automated chemical dispensing and mixing systems, along with top-performing cleaning chemicals. This has meant easy mixing, less waste, simple chemical storage, remarkable cleaning results and potential long-term savings.
Surface Cleaning Chemicals

3M™ Glass Cleaner
Cleans quickly without smearing or streaking. Suitable for glazed ceramics, windows, laminates and baked enamel finishes.
- Ideal to use with the 3M High Performance Cloths.
- Streak free, fast drying, no rinsing required.
- Effective on glass, mirrors, stainless steel, enamel, ceramic tile and plastic
- Ideal for whiteboard cleaning
- HACCP certified product

3M™ Twist ‘n Fill™
Cleaning Chemical Management System

For years, 3M™ Twist ‘n Fill™ Technology has been an industry leader in providing automated chemical dispensing and mixing systems, along with top-performing cleaning chemicals. This has meant easy mixing, less waste, simple chemical storage, remarkable cleaning results and potential long-term savings. Choose from two versatile, accurate dispensing systems to fit your needs.

Features a single dispenser that is designed to accurately dilute and dispense a wide range of cleaning solutions. You pick and choose only the chemicals you need for your cleaning task - and dispense them all through the same dispenser. Mounts on wall or, for portability, on carts or cleaning equipment. Mixing is easy and less wasteful. Your cleaning chemicals are consistent each time you mix.

- Dispense all chemicals with one dispenser
- Unique bottle and cap design lets you interchange chemicals in seconds
- Very compact — fits in most closets
- Easy to use — just insert bottle, twist and fill
- Integral air gap prevents chemical backflow
- 3M™ Bleach Dispenser will easily and accurately dispense a 1:10 bleach solution from concentrate

Floor Cleaning & Dusting Tools

3M has a range of dusters, mops, sweeper and doodlebugs to make your facilities floor shine. 3M’s specially designed 3M™ Easy Clean System is a more efficient way to dust, scrub and shine. The system helps to reduce labour costs, increase performance and cut chemical waste.
Floor Cleaning & Dusting Tools

Doodlebug™ Pads
3M™ Doodlebug™ Cleaning System - Used as part of a general cleaning program to clean baseboards, under equipment and hard to reach areas. There are two types of holders and a variety of pads to ensure fast and efficient cleaning.

3M™ Doodlebug™ Holder & Pole 6472
➤ This pad holder comes with a swivel joint which is ideal for reaching awkward areas. The supplied extension handle helps to clean floors, walls and various other hard to reach places.

Floor Cleaning & Dusting Tools

3M Easy Clean System

1. 3M™ Easy Trap Duster System...
   Holds up to 8X more debris than conventional flat fringed cotton dust mops or a competitive sweeping dust cloth brand.*

2. 3M™ Easy Scrub Express System...
   Operator-controlled dispensing mechanism helps cut chemical waste by as much as 80% vs. mop and bucket method.*

3M™ Easy Trap Duster

3M™ Easy Trap Duster - sweep & dust sheets reduce the risk of bad impressions by trapping up to 8X more dirt, dust and sand than when using traditional dust mops or a competitive sweeping dust cloth brand. Convenient disposable sheets mean no laundering. The Easy Trap Duster glides through and traps debris, especially hair. Use under any flat floor tool or high duster. Take as little or as much as needed - comes in rolls perforated every 6”. Use both sides. Expect minimum training and maximum results in veterinarian clinics, hair salons, hospitals, gyms, schools - nearly anywhere

- Traps up to 8X more dirt, dust and sand that conventional flat fringed cotton dust mops or a competitive sweeping dust cloth brand.
- No special tool required. Use on existing floor tool or high duster.
- Glides through and traps hair even on wet surfaces.
- Convenient disposable sheets, no laundering required.
- Ideal for picking up glitter and other small particles.
- After one side is used, flip it over and use the other side.
- Sheets are made with a minimum of 60% recycled content.
- Packaging is made from a minimum 65% total recycled content. A minimum 35% of the total recycled content comes from post-consumer waste.

*Internal test conducted in the 3M USA laboratory

3. 3M™ Easy Scrub Flat Mop System...
   Helps reduce disinfectant consumption and amount entering waste stream. Cuts chemical waste by as much as 80% vs. mop and bucket method.*

4. 3M™ Easy Shine System...
   Helps reduce finish usage by up to 35% vs. traditional mop and bucket method. Helps reduce employee and patient exposure to odours and floor finish disposed into waste stream.*

Floor Cleaning & Dusting Tools

3M™ Easy Scrub Express Flat Mop Tool With Pad Holder

Changing chemicals and cleaning products is a snap with the 3M™ Easy Scrub Express Flat Mop System. Interchangeable bottles fit quickly into a lightweight handle to help reduce waste and ensure precise dispensing of solutions to the work site.

- Easy maneuverability helps reduce worker fatigue
- Innovative technologies reduce mop drag up to 10X compared to other traditional flat mop systems
- Operator-controlled dispensing mechanism helps cut chemical waste by as much as 80%
- Can be used in conjunction with all other 3M™ Easy Clean System products to help provide exceptional cleaning results
- Durable long lasting material
- Resistant to Bleach

Patient room cleaning can be a much more productive process with the 3M™ Easy Scrub Flat Mop System, helping you save time and money.

Clean more with less effort.
- Mop drag is up to 10X less than other traditional flat mops
- Cleans and scrubs up to 3X faster than other flat mops
- Reduces cleaning time up to 50% compared to mop and bucket
- Reduces chemical waste by up to 80%
- Helps eliminate mops and buckets
- Other common applications include classroom cleaning, cafeteria tables, stairwells, wrestling mats, restrooms and spot mopping

Floor Finishes & Coatings

3M is well known for floor finishing and coating systems for a broad range of substrate applications including vinyl tile and sheet vinyl, porous concrete, stone and marble, terrazzo, granite and quarry tile floor finishes.

Our floor care products are designed for efficiency of effort and high performance over time, while minimising environmental impact.

No two areas of your building are exactly the same. Scotchgard™ Hard Floor Protection Systems give you the right floor finish to help protect your investment and stand up to each area’s specific challenges while enhancing the appearance of your commercial, educational, medical, or aged care facility.
Floor Finishes & Coatings

Experience the benefits of 3M innovation with the 3M™ Stone Floor Protection System—a complete floor care process that restores the natural beauty of your porous stone and produces a remarkable, long-lasting shine. The system has everything you look for in floor care. It’s easy to use, features environmentally preferable components for greener cleaning, needs no stripping or deep scrubbing, and creates a high traction gloss that can help reduce slips and falls.

3M scientists have spent countless hours in test environments formulating and validating the performance properties of the 3M™ Stone Floor Protection System. And more than five decades of experience in floor protection and maintenance stand behind our products. That’s 3M at work for you.

Protection that Shines

- RESTORE with precise, fast-cutting 3M™ Trizact™ Diamond TZ Discs.
- PROTECT from staining, scratching and black marks with Scotchgard™ Stone Floor Protector.
- MAINTAIN the brilliant shine with Scotch-Brite™ Purple Diamond Floor Pad Plus and 3M™ Neutral Cleaner Concentrate.
**Floor Finishes & Coatings**

**Scotchgard™ Low Maintenance 18 Floor Finish, 9.5 L**
- Low maintenance, economical, 18% solids floor finish. Quick-drying formula is responsive to spray buffing and burnishing. Use on most hard floors maintained with machines of any speed.

Floor Finishes & Coatings

Scotchgard™ Stone Floor Protector, 3.8 L Bag

Every year, poorly maintained floors are responsible for more than two million customer and employee fall injuries. The result is billions of dollars in medical, insurance and litigation costs. In just two coats, Scotchgard™ Stone Floor Protector creates an NFSI-Certified “high traction” surface that can help prevent slips and falls. What’s more, you get a long-lasting, glossy, natural-looking floor that is less susceptible to scuffs, black marks, stains and scratches.

- No stripping or deep scrubbing required, eliminating operator exposure to and environmental release of potentially hazardous stripping chemicals
- Easy to spot repair damaged areas
- Unique hybrid technology that densifies, increases hardness and improves wear

Floor Pads

Every 3M Floor Pad is made to high quality standards. Ongoing innovation and advancements in technology make 3M Floor Pads more effective than ever. Each floor pad in 3M’s full line is engineered specifically for a particular maintenance task.
Floor Pads

For over 50 years, high performing 3M™ Floor Pads have been an industry leader. High performance aligns well with sustainability.

When compared to the nearest competitor, 3M floor pads:

- Remove deep scuff marks 7 times faster*
- Provide nearly 40% more aggressive floor stripping*
- Have 25% better cut on Schiefer test*
- Have 50% better burnishing durability*

Every 3M™ Floor Pad is made to high quality standards. And ongoing innovation and advancements in technology make 3M floor pads more effective than ever.

It’s no wonder we are the #1 supplier worldwide.

- Each floor pad in 3M’s full line is engineered specifically for a particular maintenance task.
- 3M floor pad uniformity and quality helps produce: less machine wobble and vibration, less operator fatigue, prolonged useful life of the pad and better results on your floors.
- Uniform coating throughout every 3M floor pad helps produce a long, useful life, resulting in less pad usage.

*Applies to specific 3M floor pads. Contact 3M for supporting test data.

All floor pads are not created equally.

The differences between floor pads may seem small. But when added up, they can make a big difference to your bottom line in terms of productivity and labour costs. Consider the following attributes of 3M floor pads that help set them apart from the competition:

- Uniform distribution of mineral abrasives throughout pad—not just on the surface—offers impressive performance and a long, useful life.
- Individually separated and coated fibers help produce more consistent, high-quality results.
- The combination of highly conformable fibers help to provide maximum pad-to-floor contact.

3M™ Floor Pads

OUTSIDE

INSIDE

Fibres uniformly coated with resin and mineral throughout entire pad, producing more consistent results

Combination of highly conformable fibres help to maximise the pad-to-floor contact

Other Floor Pads

OUTSIDE

INSIDE

Fibres randomly coated with resin and mineral, which can produce inconsistent results

Larger fibres are less conformable, providing fewer contact points with the floor

Choose the right floor pad for the job.

No two floor maintenance jobs are exactly alike. That’s why 3M, the inventor of floor pad technology and the world’s number one floor pad supplier, manufactures a wide range of products designed for specific types of equipment and maintenance tasks. Use this chart to help you choose the pads you need or contact your 3M representative for help.
Floor Pads

3M™ Trizact™ Diamond TZ Discs

Give marble, terrazzo, polished concrete and other porous stone floors new life with 3M™ Trizact™ Diamond HX Discs featuring proprietary 3M technologies and manufacturing techniques, these advanced abrasives leave exceptionally consistent scratch patterns, maximizing efficiency and reducing the number of steps in the restoration process.

- Uniform cutting surface stays sharp and effective through the life of the discs
- Wet process does not create dust
- Compatible with standard floor cleaning equipment (low speed rotary and automatic scrubber)
- Can also be used with the 3M™ Electric Variable Speed Polisher to easily access stairs, corners and other tight areas
- Fast material removal rates
- Use on your existing flat grinding and finishing equipment - both single and double-sided lapping machines
- Cleaner operation - reduces machine wear
- Designed to work with aqueous coolants to reduce clean-up and toxic waste disposal issues associated with abrasive slurries
- Minimizes sub-surface damage
- Designed for speed, consistency and control needed for flat finishing, grinding and lapping of technical ceramics, glass and exotic metals

3M™ Trizact™ Diamond TZ Discs, Gold

Diamond disc system for more aggressive refurbishing of stone floors with apparent wear or damage from scratching or pitting.

3M™ Trizact™ Diamond TZ Discs, Red

Diamond disc system for refurbishing and initial finishing of worn and damaged stone floors using low-speed rotary or automatic equipment.

3M™ Trizact™ Diamond TZ Discs, Blue

For intermediate finishing and pre-polishing stone floors using low-speed rotary or automatic equipment.

Floor Pads

Scotch-Brite™ Clean & Shine Pad
The Scotch-Brite™ Clean & Shine Pad shines the floor as you clean with it. With repeated use, your floors gradually achieve burnish-quality results without the extra step of actually burnishing. Using a low-speed auto scrubber with just plain water or neutral cleaner, it effectively removes scuff marks faster than traditional floor pads and lasts significantly longer. So you can maintain a shining reflection with less time, effort and equipment.

Use the two-sided Scotch-Brite™ Clean & Shine Pad for daily cleaning and dustless polishing.

- **Less time to clean** — removes black marks 3 times faster than traditional cleaning pads.
- **Reduce burnishing** — shine increases with each use to reduce or even eliminate the need for burnishing.
- **Less equipment** — clean and shine in the same step using only a low-speed scrubber.
- **Fewer chemicals** — effective with just water.
- **Replace less often** — lasts longer than traditional cleaning pads.
- **Versatile** — can be used on most coated and uncoated floors including VCT, vinyl, stone, terrazzo, concrete, marble, granite and rubber.

Floor Safety

3M offers a full range of functional, slip-resistant tapes and treads suitable for industrial or residential applications in dry, wet or oily conditions. 3M also manufactures temporary peelable slip resistance coatings for high risk areas.
Floor Safety

Scotchgard™ Anti-Slip & Surface Protection Film

Scotchgard™ Anti-Slip & Surface Protection Film is designed to protect stone and vinyl flooring as well as bathroom surfaces from the everyday challenges they are subjected to. It can be applied to vinyl, sealed concrete, marble, ceramic tile, terrazzo and more.

Typical uses:
- Building entrances
- Airports
- Underneath chairs and furniture
- Rolling beds
- Cafeteria lines and dining areas
- Retail aisles
- Bathroom surfaces and floors
- Classroom chairs and more

This protective film reduces the number of stripping and recoating events a surface requires – which saves you time, labour and money. No special tools or techniques are required to install and remove Scotchgard™ Anti-Slip & Surface Protection Film. The product can also be easily removed prior to floor stripping or refinishing. Scotchgard™ Anti-Slip & Surface Protection Film is compatible with standard floor cleaning procedures such as the use of auto scrubbers as well as as floor disinfectants, cleaners and coatings. In addition, it has been certified to a P4 slip rating making this a high traction product.

Protection that Shines

As a leading global manufacturer of slip-resistant products, 3M offers a full range of functional, slip-resistant materials designed for the safety of people in the workplace. These mineral and non-mineral coated products are suitable for industrial or residential applications in dry, wet or oily conditions. 3M™ Safety-Walk™ Slip-Resistant Tapes and Treads adhere to clean, dry surfaces without wrinkling, curling, tearing, shrinking or lifting and offer proven durability for long life. Pressure sensitive adhesive backing makes it easy to apply tapes and treads without the use of anchoring.

3M™ Safety-Walk™ Tapes and Treads meet or exceed the standards and recommended guidelines for slip resistance in accordance with AS/NZS requirements. Standard rolls and pre-cut treads are available in a variety of sizes, colours and textures ranging from fine resilient, medium resilient and general purpose to coarse and conformable material types. Custom sizes, pieces and die-cut shapes are available through an extensive national network of 3M authorized converters.
Floor Safety

3M™ Safety-Walk™ Slip-Resistant Fine Resilient Tapes and Treads - 200 Series

A fine-textured, slip-resistant surface with a pressure-sensitive adhesive backing provides enhanced safety and comfort in light and barefoot traffic areas.

► For wet, barefoot-traffic areas
► Non-mineral, fine-textured, slip-resistant vinyl surface
► High performance, water-resistant, acrylate adhesive is ideal for wet conditions
► Applications: showers, tubs, surfboards, around hot tubs and pools
► Standard sizes:
  - 25mm x 18.2m
  - 50mm x 18.2m
  - 100mm x 18.2m
  - 150mm x 18.2m
  - 300mm x 18.2m
  - Custom shapes and sizes are also available
Colours : White & Clear

3M™ Safety-Walk™ Slip-Resistant Medium Resilient Tapes and Treads - 300 Series

A soft textured, non-mineral, medium resilient surface bonded to a pressure-sensitive adhesive backed plastic film.

► For barefoot or shoe-traffic areas
► Non-mineral, medium textured, slip-resistant polyolefin surface
► Textured resilient high friction surface and durable adhesive provide long-lasting performance
► Applications: locker rooms, around hot tubs and pools, boats, personal watercraft, water skis, exercise equipment, conveyers
► Standard sizes:
  - 25mm x 18.2m
  - 50mm x 18.2m
  - 100mm x 18.2m
  - 150mm x 18.2m
  - 300mm x 18.2m
  - 600mm x 18.2m
  - 914mm x 18.2m
  - Custom shapes and sizes are also available
Colours : Black, Grey

Floor Safety

3M™ Safety-Walk™ Slip-Resistant Conformable Tapes and Treads - 500 Series

A high-friction, slip-resistant material that has a special pressure-sensitive adhesive backed aluminum film that conforms around corners and adheres to irregular surfaces.

- For irregular or contoured surfaces in light to heavy shoe-traffic areas
- Mineral-coated, high friction slip-resistant surface
- Aluminum backing conforms to corners, curves, and irregular surfaces
- Aggressive, high performance adhesive forms an excellent bond for a secure hold
- Applications: stairs, ladders, loading ramps, platforms, irregular surfaces like diamond plating or flat surfaces with rivets or screw heads
- Safety yellow colour for high visibility and easy identification of hazard areas

Standard sizes:
- 25mm x 18.2m
- 50mm x 18.2m
- 100mm x 18.2m
- 150mm x 18.2m
- 300mm x 18.2m
- 600mm x 18.2m
- 914mm x 18.2m
- Custom shapes and sizes are also available

Colours: Black & Yellow

*See price pages for list of Safety-Walk sizes, colours & codes
Floor Safety

3M™ Safety-Walk™ Slip-Resistant General Purpose Tapes and Treads - 600 Series

A mineral-coated, slip-resistant material adhered by a durable resin to a pressure-sensitive adhesive backed plastic film.

- For light to heavy shoe-traffic areas
- Mineral-coated, high friction slip-resistant surface
- Highly durable surface withstands the rigors of equipment traffic
- Low-profile design helps reduce trip hazard
- High performance pressure-sensitive adhesive for easy application
- Applications: flat surfaces, steps, stairways, entrances, ramps, ladders, lawn equipment, snowmobiles, scooters, construction machinery and vehicles

- Standard sizes:
  - 25mm x 18.2m
  - 50mm x 18.2m
  - 100mm x 18.2m
  - 150mm x 18.2m
  - 300mm x 18.2m
  - 600mm x 18.2m
  - 914mm x 18.2m
- Custom shapes and sizes are also available

Floor Safety

3M™ Safety-Walk™ Coarse Tapes and Treads - 700 Series

Extra-large mineral particles and durable construction provide additional slip resistance in extreme conditions.

► For extreme, heavy traffic areas
► Extra-large abrasive mineral particles help provide a stable slip-resistant surface even in the presence of water or oil
► High performance adhesive creates excellent bond to most surfaces
► An open abrasive pattern resists clogging and reduces clean up time
► Applications: construction vehicles, ship and plane decks, trains, semi-trailers, oily wet areas, platforms and ramps, machine shops, agriculture and forestry equipment, recreational vehicles

► Standard sizes:
  - 100mm x 18.2m
  - 150mm x 18.2m
  - 600mm x 18.2m
  - 1.2m x 100m
  - Custom shapes and sizes are also available

Colours: Black, Grey

Floor Safety

OEM Custom Converting and Die Cutting
3M’s national network of authorized converters can expertly match 3M technologies to customer requirements with the form, fit and functionality for application success. When a specific product design or architect drawing calls for a non-slip surface or an equipment part needs a slip-resistant component added, 3M™ Safety-Walk™ Materials can be easily die cut to meet your specific requirements. 3M™ Safety-Walk™ Slip-Resistant Products help provide traction on slippery surfaces and help meet AS/NZS standards. In addition, 3M™ Safety-Walk™ Coarse Tapes and Treads 700 Series meets, and is on the qualified products list associated with Military Specification MIL-PRF-24667C Type XI Comp PS covering non-skid systems.
Floor Safety

3M™ Safety-Walk™ Primer 901
Solvent based adhesive prepares rough or porous surfaces before application of slip resistant tapes & treads.

Matting

Over 30 years ago, 3M scientists developed a product which would help effectively protect building entrances from dirt. The first Nomad™ matting product with its revolutionary vinyl ‘coiled loops’ was developed to help remove moisture as well as dirt and debris. Incorporating carpet fiber technology, 3M expanded its entrance matting offering. Today, thanks to continuous innovation and proven expertise, 3M offers a complete line of entrance matting as well as Safety-Walk™ branded wet area and anti-fatigue work area matting.

Matting

3M™ Nomad™ Heavy Traffic Scraper Matting 7150 Backed/7100 Unbacked

Vinyl-loop matting for outdoor applications, recessed wells and foyers.

Designed for heavy traffic conditions.

► Durable, vinyl-loops scrape, trap and hide dirt and moisture, minimising re-tracking into the building.
► Provides resistance to grease and oil.
► Backed mat can be used for indoor applications and protects floor surfaces.

Colour: Multiple

Sizes: 1.2m x 12m

3M™ Nomad™ Aqua Series 45

Suitable for LOW traffic volumes

► Dual-fibre tuft traps and absorbs dirt and moisture more effectively than conventional matting
► Backed with phthalate-free, high traction PVC
► Easy to clean
► Available as free standing mats

Colour: Blue, Black, Brown

Sizes: 2m x 20m

*See price pages for list of Nomad™ sizes, colours & codes
Matting

3M™ Nomad™ Aqua Series 65
Suitable for MEDIUM traffic volumes
▶ Superior fine dirt and moisture removal
▶ Dual-fibre loop pile, arranged in a checked pattern
▶ Excellent appearance retention
▶ Recommended as a second stage mat, under medium traffic conditions
▶ Phthalate-free, high traction PVC backing
▶ Long lasting and easy to clean
▶ Available as free standing mats and in rolls

Colour: Black, Grey, Blue, Brown
Sizes: 2m x 20m

3M™ Nomad™ Aqua Series 85
Suitable for HIGH traffic volumes
▶ Advanced water removal and retention properties
▶ Loops arranged in random pattern to hide more soil
▶ Phthalate-free, high traction PVC backing
▶ Excellent durability and appearance retention
▶ Easy to clean
▶ Available as drop down mats or in rolls

Colour: Black, Grey, Blue, Brown
Sizes: 2m x 20m

*See price pages for list of Nomad™ sizes, colours & codes
Matting

3M™ Safety-Walk™ Welding Matting 5800

Modular mat resists welding flux, can be used in both greasy and dry environments.

- Specially designed to resist welding flux and grinding sparks of 1300°C to 1500°C for less than 3 seconds.
- Excellent durability and highly resistant surface for load bearing characteristics.
- Can be used in both greasy/dry environments.
- Reduces fatigue during prolonged standing.
- Available with designs for non-slip surfaces.
- Modular mat, with end and centre pieces available. These pieces interlock to form various mat lengths to suit requirements.

Matting

3M™ Clean-Walk™ Mats

3M™ Clean-Walk™ are a multi-sheet adhesive system that captures dirt on contact from shoes, wheel and other passing objects. The top sheet easily peels away when soiled, instantly exposing a fresh, ready-to-use adhesive sheet.

- This mat system is suitable for every environment - from office, manufacturing, laboratory to warehouse
- Ideal for Clean Room environments as they contain antimicrobial properties that inhibit fungal growth in the mat
- Available in framed (60 sheets) or unframed (30 or 60 sheet options)

Sizes:
457mm x 1168mm
630mm x 1140mm
640mm x 800mm Framed

3M pioneered the development of synthetic sorbents while leveraging one of our core technologies. Our sorbents contain no abrasive granules that can damage expensive equipment. Instead, they are made from microfiber materials, which contain millions of tiny pockets that absorb and hold liquids. Choose from petroleum (oil-only), maintenance (for non-aggressive liquids), and chemical (for most aggressive and non-aggressive liquids) formats.
Spill Management

Now more options
3M™ Sorbents are available in high capacity, medium capacity and traditional absorbency so you can select the right product for the size of your potential spill. These pads and rolls can be wrung out and reused many times with virtually no loss in absorbency. We complement our rolls and pads with booms, mini-booms, pillows, drum covers, spill kits and response packs for use with many types of spills and tasks.

Sustainability
Our high and medium capacity sorbents are lightweight to reduce the volume of waste going into landfill. 3M™ Sorbents may be incinerated with very low ash residue. High capacity sorbents contain at least 25 percent recycled content by weight. Medium capacity sorbents contain at least 50 percent recycled content by weight.

Additional benefits
► 3M’s microbundle technology employs millions of tiny voids to absorb liquid - effectively doubling the capacity of the material
► 3M™ Sorbents absorb more so you don’t have to use as much, and create less waste
► 3M™ Sorbents are made from inert polypropylene and polyester fibers that trap liquid in the voids
► 3M™ Sorbents are lightweight, non-abrasive and come in many shapes and sizes to perfectly fit your application
► 3M™ Petroleum Sorbents can be reused; 90 percent of the oil can be wrung out and reclaimed
► 3M™ High and Medium Capacity Sorbents are made with scrim on one or two sides to help eliminate linting
Cost Benefits of 3M™ Sorbents

Because of 3M™ Sorbents’ superior absorbency properties, they offer significant cost benefits associated with materials, labour and disposal.

**Spill Management**

**Different Types of Sorbents**

**3M™ Oil & Petroleum Sorbents**
- For control and clean-up of petroleum-based fluids
- Repels water and floats
- For use on land or water

**3M™ Chemical Sorbents**
- For control and clean-up of most hazardous liquids
- Resists reactions with most hazardous chemicals, including acids
- Absorbs petroleum-based and aqueous-based solutions

**3M™ Maintenance Sorbents**
- For control and clean-up of non-aggressive liquids
- Helps maintain a clean and safe working environment
- Absorbs petroleum-based liquids and aqueous-based liquids

**High Capacity & Medium Capacity Sorbents**

3M offers both high or medium levels of absorption capacity to give you the freedom to choose which one is right for your application.

**High Capacity Sorbents**
When you need the most economical and efficient sorbent design, reach for high capacity sorbents from 3M. They quickly absorb and hold spilled liquids for fast and efficient clean up. Added scrim helps improve product strength. High capacity sorbents contain at least 25 percent recycled content by weight.

**Traditional Sorbents**
Proven for decades, 3M’s original low-profile design offers medium to high absorbent capacity, depending on your needs.

**Medium Capacity Sorbents**
When cleaning up lower volume spills and containing everyday drips and small leaks, medium capacity absorbents are a great choice. They are designed to help maintain a clean and safe working environment and are available in a variety of convenient formats. Added scrim helps improve product strength. Medium capacity sorbents contain at least 50 percent recycled content by weight.
