Product Description

3M Adjustable Keyboard Trays help place your keyboard and mouse at proper level to increase comfort and productivity. AKT65LE has a tool free installation knob adjust arm that controls both height and tilt - just loosen knob, set height and re-tighten. Adjusts height to 1.25" above mounting surface and 4.5" below mounting surface. Standard all-in-one platform with wooden construction minimizes bouncing. Includes all-in-one leatherette gel wrist rest with antimicrobial product protection and Precise Mouse Pad that can be placed on right or left of keyboard. Lifetime warranty on arm, five years on platform, and one year on gel wrist rests. Contains 70% preconsumer recycled content. Black.

From the Manufacturer

The 3M Knob-Adjust Keyboard Tray offers a customizable solution for maximum flexibility and comfort at your workstation. Mounted under your desk to save space, this keyboard tray provides a sturdy keyboard surface on which you can work with ease. The Knob-Adjust Keyboard Tray works with straight workstations and allows you to adjust the tilt and height of your keyboard position to achieve optimal ergonomic benefits. You'll be up and typing in no time thanks to damage-free Command Strips, which allow you to mount the arm to your desk without the need for tools. The included all-in-one Standard Platform offers a Precise mousing surface with battery saving design, a wrist rest with 3M Gel Technology and an all-wood construction that minimizes instability as you type.

3M Tool Free Installation Knob Adjust Keyboard Tray, Standard Platform, Gel Wrist Rest, Precise Mouse Pad, Black (AKT65LE)

Create a Customized Workstation

An ergonomic workstation offers the benefit of improved circulation and the reduction of repetitive stress injuries. With the Knob-Adjust Keyboard Tray you can easily adjust your keyboard to the most ergonomic position. With a 17-inch track length, the tray is suitable for straight desks with as little as 17-1/4-inches of mounting depth.

A Wide Range of Easy Adjustability

The Knob-Adjust Arm can easily be raised up to 1.25 inch above and 4-1/2 inches below the mounting surface. With a forward tilt of 15 degrees and a backward tilt of -15 degrees, the Knob-Adjust Keyboard Tray allows you to keep your wrists in a neutral position. The knob adjusts both height and tilt. To adjust, simply loosen the knob, set height and tilt, then re-tighten.

Standard All-in-One Platform

The included Standard Platform's wooden construction reduces the amount of "bounciness" as you work. By minimizing this instability, you'll increase workplace productivity and reduce injury caused by poor ergonomics. The Standard Platform also features a Precise mousing surface that can be placed on the left or right side of your keyboard. The platform is made with 70% postconsumer recycled content by volume.
