

3M™ Tegaderm™ and Tegaderm™ HP Transparent Dressings

The clear choice for easy application and extended wear time

Tegaderm and Tegaderm HP Transparent Dressings

A family of transparent dressings preferred by clinicians for I.V. site and wound management.

- **Versatile** Can be used for many applications including I.V.s, chronic wounds, acute wounds and skin protection
- **Breathable** Allows skin to function normally
- **Fluid, bacterial and viral barrier*** Protects site from external contamination
- **Easy application** Popular picture frame delivery system allows tension-free dressing application
- **Transparent** Allows for precise placement and easy wound and I.V. monitoring

* Laboratory testing has proven Tegaderm and Tegaderm HP transparent dressings provide a viral barrier (HIV-1 and HBV) while the dressings remain intact without leakage.

- **Cost-effective** Longer wear times reduce supply costs, nursing time and skin trauma
- **Special shapes** Body-conforming to reduce dressing edge lift in hard-to-dress areas

Tegaderm HP Transparent Dressings

Greater **Holding Power** in addition to all the attributes of standard Tegaderm dressings. Use Tegaderm HP transparent dressings especially for challenging situations.

- **Special adhesive and film** Holds securely even in the presence of moderate amounts of moisture
- **Sacral shape** Protective dressing for patients who are at risk for skin breakdown in the sacral area
