

3M™ Cavilon™ Moisturizing Lotion

Skin Moisturization for Clinicians

Skin damage from handwashing and glove use is a frequent and serious problem for clinicians' hands. The use of Cavilon Moisturizing Lotion can help maintain or restore the skin's natural moisture and pliability while not reducing the effectiveness of chlorhexidine gluconate (CHG) hand antiseptic products or the tensile strength of gloves.

- CHG compatible
- Will not break down latex or synthetic gloves
- Hypoallergenic
- Fragrance-free
- Compatible with the 3M™ Avagard™ Family of Products
- Latex-free*

3M™ Cavilon™ Moisturizing Lotion

Intended Use

- In between handwashings or use of hand sanitizers.
- General purpose moisturizer.

Directions For Use

Gently cleanse skin as required. Apply Cavilon Moisturizing Lotion liberally to skin as needed. Repeat as necessary.

Compatible with the 3M™ Avagard™ Family of Products

**HCPCS codes as referenced in the Local Coverage Determination Surgical Dressing and Ostomy Policies.

Disclaimer:

HCPCS codes have been provided to assist you in the preparation of Medicare Part B claims. Please note, however, that the reimbursement information provided by 3M Health Care and its representatives is intended to provide general information relevant to coverage and coding for 3M products. Insurers' reimbursement policies can vary and the use of the codes discussed here does not guarantee that an insurer will cover or pay at any particular level. Health care providers should exercise independent clinical judgment in choosing the codes which most accurately describe the products provided.

*This product does NOT CONTAIN either Natural Rubber Latex or Dry Natural Rubber as components in the product or in its package.
