

Tool Bag Hanger

for ExoFit STRATA™ Safety Harness - 9512724

This tool bag hanger is an aluminum alloy accessory designed exclusively for the ExoFit STRATA safety harness. The tool bag hanger's function is to keep tool bags, tool pouches, and bolt pouches conveniently located on the worker's hip to enhance worker effectiveness.

The ExoFit STRATA safety harness can hold a tool bag hanger on each side of the belt. Each tool bag hanger can hold up to 40 lbs.

Follow these steps to install the tool bag hanger:

Step 1:
Open up the tool bag hanger by rotating the hinge.

Step 2:
Slide one end under the tool bag or tool bag loops. Rotate hanger up so the two rectangular openings align.

Step 3:
With the belt removed from your ExoFit STRATA safety harness, place the aligning two rectangular openings over the belt loop on your harness.

Step 4:
While pressing down the tool bag hanger, thread the belt through the belt loop, but over the tool bag hanger.
