

Capturing quality metrics: Now is the time

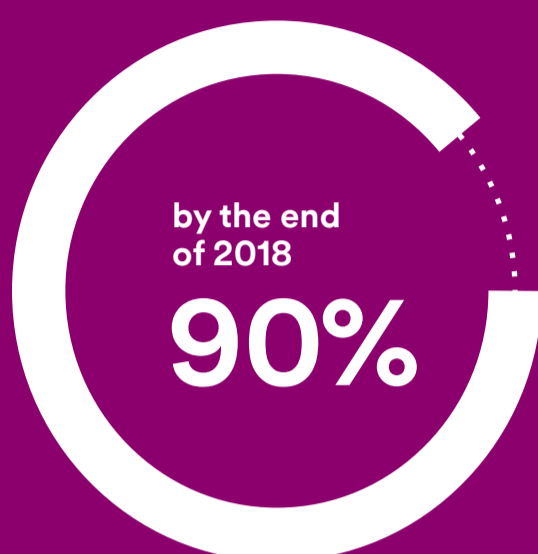

CMS Goal 1:

30 percent of Medicare payments tied to quality or value through alternative payment models at the end of 2016.

CMS Goal 2:

85 percent of all Medicare fee-for-service payments tied to quality or value at the end of 2016.

With the 3M™ 360 Encompass™ System, healthcare organizations:

- Monitor and manage quality results in detail with more than 100 reports
- Receive reports in real-time from patient documentation on the key quality indicators, including AHRQ (PSI, PDI, NQI), HAC, ACR, PPR and PPC
- Offer quality professionals access to CDI workflow for better investigation and fewer redundancies

What early warnings or quality indicators are you missing?

Can you afford to?

What difference does 3M make?

The University of Utah Health Care System

*“If it weren’t for the quality indicators, we wouldn’t be in the top 10 of the University Health System Consortium.”**

Kettering Health Network

“Shortly after the implementation of 3M™ 360 Encompass™, we saw a nearly 100% identification rate in PSIs and HACs.”

Parkland Health and Hospital System

“With the quality indicators, we are able to get data that we weren’t able to get before.”
