**Efficient Restorative  
Procedure Solution—  
Repair & Protect**

**Because they like  
staying on schedule  
as much as you do.**

# Your time matters as much as theirs ...

When your schedule gets thrown off—as we all know can happen—patients can't hide their disappointment, and your day runs long. So, to help you stay on schedule, we've simplified the procedure you perform most frequently—the posterior restoration.

At the core of the procedure is 3M™ Filtek™ One Bulk Fill Restorative ... with increased opacity for greater esthetics. It can be placed in one fast, easy increment up to 5 mm—without the need for layering or additional expensive dispensing devices that can slow you down.

By using it with our other 3M products that are easy to use, you'll move through posterior restorations with speed and simplicity—saving time without compromising esthetic results.

Your patients will be happy—and so will you when you can end your day on time.

## Efficient and consistent procedure for Class II restorations

- ▶ Simple, one-step bulk placement up to 5 mm with Filtek One Bulk Fill Restorative
- ▶ High bond strength and virtually no post-op sensitivity with 3M™ Scotchbond™ Universal Adhesive
- ▶ Deep, uniform cure with the 3M™ Elipar™ DeepCure-S LED Curing Light
- ▶ Polish restorations to a high-gloss finish with the 3M™ Sof-Lex™ Diamond Polishing System
- ▶ Protect with 3M™ Clinpro™ 5000 1.1% Sodium Fluoride Anti-Cavity Toothpaste

# Repair and protect

# Fast and easy from start to finish.

## 3M™ Scotchbond™ Universal Adhesive

Versatile. High bond strength. One simple technique and quick 35-second application. Virtually no post-operative sensitivity.

## 3M™ Filtek™ One Bulk Fill Restorative

Simplicity of bulk placement up to 5 mm deep. Low wear for durability and stress relief. Optimized opacity for greater esthetics.

## 3M™ Elipar™ DeepCure-S LED Curing Light

Predictable, reliable cure. Optimized light guide is more comfortable for patients and provides easier access to posterior teeth.

## 3M™ Sof-Lex™ Diamond Polishing System

Easily adapts to irregular, convex and concave tooth surfaces and imparts paste-like gloss with the convenience of a rubberized system. Fast and easy to use.

## 3M™ Clinpro™ 5000 1.1% Sodium Fluoride Anti-Cavity Toothpaste

3M's Tri-Calcium Phosphate (TCP) helps repair white spots and protect against cavities. It replaces the toothpaste in the normal brushing routine, making compliance easy.

Prescription only. Use in adults and children 6 years of age and older.

Use once daily in place of conventional toothpaste. Go to [www.3M.com/dental](http://www.3M.com/dental) to obtain the full prescribing information or call 1-800-634-2249. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.
