

## 3M™ Drive-Thru System Model G5

### Fitting the new 3M™ Speaker Weatherscreen onto the current 5" speaker assembly

#### Overview

In environments where providing the current **3M™ 5-inch Speaker Assembly** with protection from moisture is necessary, you can retro-fit the speaker with the new **3M™ Speaker Weatherscreen**. (SKU #78-6911-5203-3)

This document illustrates how to conduct the retrofit.

#### Procedure

1. Open the cover to the speaker assembly (Figure 1).
2. Place barrier screen, gasket down against cover.
3. Turn barrier about 30 degrees so the barrier screen is centered in the cover and touches the cover edges (Figure 2).
4. Without moving the barrier or cover, replace the speaker and box into the cover with continuous pressure to prevent the barrier from moving and replace the screws (Figure 3).
