Interiors as vibrant as your brand.

Create dynamic, unique and personalized spaces with 3M printable films and overlaminates.
If these walls could talk, they’d sing.

You’ve established a thriving business. Now use your walls to extend, strengthen and showcase your brand. These larger-than-life blank canvases are opportunities to create an experiential environment for both employees and customers.

The best part? You’re no longer limited to paint or wallpaper. No more repeating patterns, odd sizes and difficult removals. Whether you have a new space or need a refresh, printed graphics will transform walls from ho-hum to harmonious.

Fast installation.

Printed graphics can be professionally installed quickly — no messy paste, paint odor or dry time — for less business downtime.

Starts beautiful, stays beautiful.

Vinyl and non-PVC graphic film will not shrink over time, so it won’t pull away from wall edges or separate at the seams. Plus, it can help mask wall imperfections. The protective overlaminate guards against scuffs and is cleanable.

3M Digital Wallcovering Solutions
Warranted solution.
Your amazing-looking graphic can be covered for up to 8 years.

Customized fit.
Instead of an off-the-shelf, one-size design, printed graphics and overlamine finishes are made to fit your wall — and your business.

Cost-effective, brand-effective.
Need a quick refresh? Update and replace graphics easily without the time and cost of remodeling.
It takes two.

Inspired wall graphics are produced with two films — a printed base film and a protective overlaminate.

Bring your walls to life with printable wrap films.

The same 3M graphic films known for turning vehicles into mobile advertising will transform your walls into brand showcases. Create one-of-a-kind or extended-design graphics with digitally printed films. 3M printable graphic films provide excellent image quality, consistency and durability for long-lasting impressions. And since printing on embossed materials like wallpaper can compromise image quality, designs printed on a flat base film can be paired with any overlaminate finish or texture for superior results.

Here are two recommended digitally printable films from our broad portfolio of products.

3M™ Print Wrap Film IJ180mC-10
- Cast vinyl film for smooth walls

3M™ Envision™ Print Wrap Film
LX480mC or SV480mC
- Non-PVC film is GREENGUARD Gold Certified, offering a greener option for smooth or textured surfaces that will contribute to healthier indoor air quality.

Both films offer:
- Excellent print quality
- Adhesive backing for installs without the mess and odor of wallpaper or paint
- Comply™ Adhesive with micro technology, featuring excellent air release for smooth, bubble-free graphics
- No shrinkage over time, so it won't pull away from wall edges or separate at the seams

8-year warranty available
3M now offers the first-ever warranty for wall graphics of up to 8 years. Indoor wall graphics produced with 3M graphic films IJ180mC-10 or 480mC installed on smooth, interior walls may be eligible for the 3M™ MCS™ Warranty, the most comprehensive finished graphics warranty in the industry. See 3M.com/WallWrap for details.
Get unlimited creativity with overlaminates.

Give your printed graphic the perfect finish and protection — from matte for reduced glare and reflections to textures that enhance and add depth to graphics. Overlaminates guard against scuffs, are cleanable and offer UV protection.

**Standard protection offering winning, glare-free performance:**

- 3M™ Scotchcal™ Matte Overlaminate 8520
- 3M™ Scotchcal™ Ultra-Matte Overlaminate 8915

**A greener solution for graphics on smooth or textured surfaces:**

- 3M™ Envision™ Luster Wrap Overlaminate 8549L

---

**Add texture and depth to printed graphics with NEW embossed overlaminates:**

(clear overlaminates appear on black base to show texture detail and are shown at 100% size)

- New! 3M™ Décor Overlaminate 8600M-101, Classic Linen
  Effortlessly fresh, with a crisp, uniform pattern.

- New! 3M™ Décor Overlaminate 8600M-102, Knit
  Mimics fabric, making any space more comforting.

- New! 3M™ Décor Overlaminate 8600M-201, White Fir
  A deep woodgrain texture for a stylish finish.

- New! 3M™ Décor Overlaminate 8600M-301, Riverbed
  Versatile stone texture with calming appeal.

- New! 3M™ Décor Overlaminate 8600M-401, Plaster
  A subtle leather texture to add sophistication.
