Applied to Life.™

For patients who
won't slow down,
we made it fast.

3M™ Fast Release Varnish

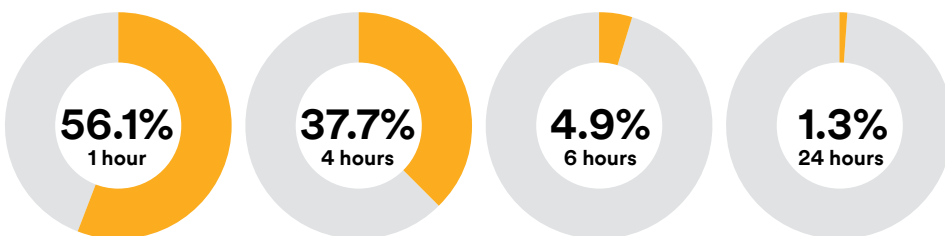

Studies show the longer fluoride varnish is in contact with the teeth, the more effective it is. However, we know patients aren't always compliant after dental treatments. Often it's because they're simply too busy. That's why we created 3M Fast Release Varnish. It releases most of its fluoride in the first 2 hours, so you can deliver a dose of quick protection ... because once they walk out your door, life takes over.

To make it an easy solution for you, we made it a good experience for them:

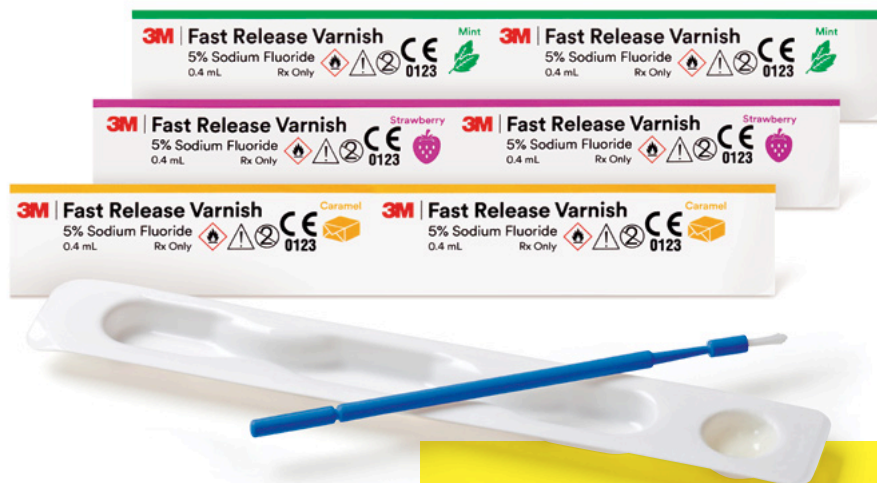

- It goes on fast.
- It tastes good.
- It's virtually invisible with a smooth coating.
- They don't need to wait to eat or drink after application.

Releases fluoride at a fast rate for quick protection!

% F ion released by time

Source: 3M internal data.

Summary of advantages

- Fast fluoride release—
22,600 ppm sodium fluoride
- Contains 5% sodium fluoride
and xylitol
- Easy all-in-one tray and
brush delivery
- Virtually clear and
smooth coating
- Does not change the
appearance of ceramic or
metal orthodontic brackets
- Relieves hypersensitivity
- Three fun and tasty flavors:

Caramel

Strawberry

Mint

Life ... bring it on!

Stay one step ahead of busy patients with 3M™ Fast Release Varnish. It gives them the quick protection of fast fluoride release. So bring on the soccer games ... birthday parties ... and dance recitals ... you've got them covered.

Fun flavors and a smooth, clear coating, make patient acceptance a breeze.

It's easy to apply!

Apply a thin coating, painting each tooth surface. 3M Fast Release Varnish sets in contact with saliva, so patients don't have to wait to eat or drink.

Ordering Information

Item # Product Information

Item #	Product Information
	3M™ Fast Release Varnish—50 Pack Each 50 Pack includes: 50 unit-dose packets of the same flavor. Each unit-dose packet contains 0.4 ml of varnish, 1 applicator brush and dispensing tray.
